Community Arts Engagement Minor

As part of the Artists, Community and Teaching (ACT) Program, the Community Arts Engagement minor is for students who wish to work in art/design education and socially engaged art/design practices in venues that do not require a teaching credential, such as K-12 private schools, museum education departments, community art centers, correctional facilities, therapeutic arts programs, public art, design companies that focus on educational materials, and the use of art and design as an agent for positive social change.

Eligibility
The Community Arts Engagement minor is open to students majoring in Communication Arts, Digital Media, Fine Arts, Fashion Design and Product Design. Because of their major curricular requirements Architecture/Landscape/Interiors and Toy Design majors will only be approved to enroll on a case-by-case basis. Students must maintain an overall 2.0 GPA.

Required Courses
