Create Your Future Now...

Otis College of Art and Design prepares diverse students of art and design to enrich our world through their creativity, their skill, and their vision. Continuing Education and Pre-College Programs offers a wide range of night and weekend courses taught by practicing professionals in art and design. Our distinctive programs provide real opportunities for learning new skills, trying new challenges, and exercising your creativity. Students of all ages, including children, find and define their personal niches. Students deepen their knowledge in particular aspects of the visual arts and explore new media and techniques; many are working towards new careers in the variety of certificate programs offered. Like you, they are passionate about art and design.

If you have interest in transitioning to a new creative career, we offer ten Certificate Programs in areas of art education, digital media arts, fashion design, fine arts, graphic design, interior design, lighting design, photography, product design, and textile/surface design. These programs are intended to prepare students for a broad range of opportunities in art and design practices and the creative industry. Otis Continuing Education and Pre-College Programs continues to augment its Certificate Programs for those interested in making career changes and will continue to offer courses for artists, designers, and educators interested in furthering their professional goals.

This spring, the division has developed an exciting line-up of courses and programs in all areas of art and design. We are pleased to offer two travel study opportunities this term – Japan: Exploring Anime and Manga! and Brazil 2016! These special programs enable unique access to world-class artists, museums, and cultural treasures. Participants explore multicultural relations, gain experiential knowledge of real-world problems, and are provided with the tools to promote civic engagement. This semester, additional offerings include Licensing Your Art and Earning Royalties, Graphite for Botanical Illustration, Life Drawing II, Recycled Objects: Collage, Assemblage, and the Found Object, Artist SOS: The World of an Exhibiting Artist, and Exploring the Arts and Science through Inquiry and Shared Practices (designed to assist K-12 teachers in meeting their professional development goals).

We look forward to serving you this spring and hope that you will find your chosen courses to be challenging, inspiring, and fun.

The Ben Maltz Gallery serves Los Angeles’ vigorous art community and the city’s diverse public at large. It is an important resource for the students at Otis, exposing them to a wide range of contemporary art and ideas through its exhibitions, catalogs, and events. Highlighting work that pushes the frontiers of traditional form and subject matter, the Gallery typically exhibits emerging and established Los Angeles artists and designers, placing them in the context of national and international programming. The Gallery both originates and participates in national touring exhibitions.

Ben Maltz Gallery is located on the ground floor of the Galef Center for Fine Arts on the Goldsmith Campus. Gallery hours: Tue-Fri 10am-5pm | Thu 10am-7pm | Sat-Sun 12-4pm | Closed Monday and major holidays. Free admission and parking. For more information or to join the gallery e-list for announcements of events: galleryinfo@otis.edu | 310-665-6909 | www.otis.edu/benmaltzgallery

EXHIBITION SCHEDULE

Performing the Grid | January 23 – May 15, 2016

A large group exhibition of intergenerational artists and cultural producers that utilize the grid as a performative strategy to examine, challenge and position philosophical, political, social, domestic, corporeal, and mythical perspectives. Rosalind Kraus famously wrote that the grid “functions to declare the modernity of modern art” in her 1979 essay, Grids. As we delve deeper into technology, a culture of images, violence, and surveillance, how do we locate presence inside of the grid?

The works in Performing the Grid access, address, reject and evoke the grid using video, performance, documentation, sound, sculpture, painting and installation. From Debra McCall’s geometric reperformances of Oskar Schlemmer’s Bauhaus ballets’ to Bruce Nauman’s meditative studio walks and Channa Horowitz’s sound motion compositions to Heather Rowe’s film-inspired sculptures, the grid takes on new meaning and new movement.

OTIS COLLEGE OF ART AND DESIGN
SPECIAL ONE-YEAR PROGRAM

If you want to develop new skills, hone your body of work to apply for graduate school, or do a professional refresher, the Special One-Year Program is an opportunity to study full-time at one of the country’s top colleges of art and design. This year-long program is primarily taken at the undergraduate senior level, although some flexibility in course selection allows a program that suits individual backgrounds and needs. All undergraduate programs, with the exception of Fashion Design, offer this special opportunity.

Candidates must hold a bachelor’s degree, hold US citizenship or permanent residency, have considerable professional art or design experience, and meet the same admissions requirements as BFA applicants.

For further information, please visit www.otis.edu/admissions or call 800–527–OTIS (6847).
For further information, please call 310-665-6864.

ART EDUCATION CERTIFICATE PROGRAM is a sequence of courses that provides intensive study in art education for individuals who already hold a BA, BFA, MA, or MFA in Fine Art/Design/Media Art. Offered in collaboration with Otis' Artist, Community and Teaching (ACT) Program, the certificate program offers two tracks to choose from. The Teacher Credential Preparation Track is designed to prepare individuals who wish to obtain the California Single Subject in Art Teaching Credential needed to teach in California grades K-12 public schools, by fulfilling the CA Commission on Teacher Credentialing Subject Matter in Art requirements. The Teaching Artist Track is designed to prepare students for positions that do not require a credential such as teaching artist in K-12 public or private schools, artists in residence programs, correctional facilities, museum education departments, non-profit arts organizations, etc. (SOC-25-3099*)

Students may enroll in one of two tracks:

1) Teacher Credential Preparation Track:
Successful completion of this Certificate at the college credit level would allow students to qualify for a CSET waiver.

Program Prerequisite:
Students must already hold a BA, BFA, MA, or MFA in fine art/design/media art. Subject Matter Competency evaluation (Portfolio and Transcript review) by the ACT Director is required for enrollment in the Teacher Credential Preparation track only. For more information about this evaluation please refer to the ACT website. (http://www.otis.edu/artists-community-teaching/cset-waivers)

Elective Courses:
Teacher Credential Preparation Track electives are chosen through advisement with the ACT Director, 310-846-2632.

2) Teaching Artist Track:
This Certificate prepares artists to teach in programs that do not require a CA Teaching Credential (private schools, artists in residence programs, correctional facilities, museum education departments, non-profit arts organizations.)

Program Prerequisite:
Students must already hold a BA, BFA, MA, or MFA in fine art/design/media art.

ESTIMATED TOTAL PROGRAM COST
The estimated program costs listed are based on students completing two courses per term (five terms) over a two-year period. Please refer to our website for detailed program costs. (http://www.otis.edu/ce) A completed Certificate Application and $175 fee are required for official enrollment in the Certificate program.

Note: Certificate program courses are open to all students. Students interested in taking certificate program courses for professional growth, or personal development, are welcome to attend. For further information, or to speak with a counselor, please call 310-665-6864.

All courses take place at Otis College of Art and Design's Elaine & Bram Goldsmith Campus, unless otherwise noted.

PROFESSIONAL DEVELOPMENT
FOR TEACHERS:
THE ARTS IN EDUCATION SERIES

NEW!
Exploring the Arts and Science through Inquiry and Shared Practices*

Artists, scientists, and engineers are remarkably similar in how they think and work, as well as in their approach to inquiry and practices. In this course, participants explore cross-pollination of the arts and sciences through a hands-on experience that links directly to the National Research Council’s Next Generation Science Standards. Learn and apply a simple but rigorous step-by-step questioning strategy called Question Formulation Technique (QFT), which encourages asking questions that lead to meaningful class projects and learning. Through the incorporation of QFT, students can learn more, become more engaged, and take greater ownership of their learning.

Prerequisite: None
First class materials: Note-taking materials

Art Making through the Ages: A Hands-on Approach to Art History

In this course, students deepen their creative abilities while exploring significant artistic achievements from pre-history through contemporary times. Throughout human existence, art making has been one of the most tangible expressions of our highest aspirations and deepest emotions. The arts are an essential aspect of all societies and cultures – people the world over have mirrored, decorated, critiqued, and even changed society through their creative works. Course explores major achievements throughout the ages including pre-history, Middle Ages, the Renaissance, Impressionism, Expressionism, Fauvism, Pop, and contemporary art. This unique approach provides an opportunity for students to enhance their own work through hands-on art exercises, while expanding their knowledge of art history.

The Modern Genius: Art, Culture, and the 19th Century*

Otis Online Course at Kadenze.com

This Art History course investigates the role of the French avant-garde in developing and showcasing new modern forms and approaches to art and visual culture in the 19th century. The material addresses the most critical issues of modernity from Realism through Post-Impressionism. We will cover the stylistic changes that challenged academic art, the new subjects that confounded modern audiences, and the new roles and authority of the modern artist. To do this, we will focus on the European world through a series of video podcasts and online readings over five weeks. By the end of the course, you will understand the issues of modernity and the way that art and art-making addressed these issues as well as recognize the profound impact that 19th century Europe had in shaping our contemporary ideas of being “modern.”

Prerequisite: None
First class materials: Online Course
Instructor: Parme Giuntini

FOUNDATION COURSES:

**Drawing & Composition**

This beginning course develops skills in the elements of drawing and composition. Through demonstration, class exercises, and critiques, students explore concepts including contour line, cross contour, modeling, uses of marks to show form and space, perspective, scale and measurement, and positive/negative space.

**Prerequisite:** None

**First class materials for Adams:** One box of Staedler Mars graphite pencils 6H to 8B; one roll of drafting tape or artists tape (low tack tape), 1/2” thick; one Staedler Mars white plastic eraser; one pencil sharpener; one Masonite drawing board with two clips and pink rubber band (large enough to hold an 18” x 24” sketch pad; one 18” x 24” Strathmore recycled drawing tablet (dark green cover) or Strathmore drawing tablet (brown cover)

**First class materials for Bledsoe:** 18” x 24” newsprint pad, drawing board, 9” x 12” sketchbook, charcoal pencils (HB, 2B, 4B), graphite pencils, ebony pencil, kneaded eraser, retractable knife, pencil sharpener

**First class materials for Jones:** Drawing board; 18” x 24” sketchpad (Strathmore, Canson, Aquabee); 11” x 14” sketchbook; Charcoal pencils: hard (HB or B), medium (2B or 4B), soft (6B or 8B); Pastel pencils: Faber-Castell “PITT” or Stabilo “Carbohthello” pencils, NO Conte’ pastel pencils; Pastel colors: dark sephia in PITT and one or two other dark earth-tones, blues, reds; Colored pencils: Faber-Castell “Polychromos” and Berol “Prisma-color”; Colors: two or three in dark colors (black, reds, blues, etc.; Do not get watercolor versions of these pencils) Kneaded rubber eraser; Eraser shield; Razor blades; Small piece #100 sandpaper (3” x 4”); Chamois; 18” x 2” “See-Thru Ruler” (plastic)

**Color Theory & Design**

An essential course for anyone pursuing or currently working in any art or design field who must communicate effectively with color. Confidence and skill are developed through weekly color-mixing exercises and homework projects using gouache. Through lecture, demonstration, critique, and practical experience, students investigate color theory, historical color comparison, color in nature, and analyze masterpiece color. Lectures include the phenomena of color and light and the use of color as a marketing tool.

**Prerequisite:** None (may be taken concurrently with XGRD5012 Fundamentals of 2-Dimensional Design)

Fundamentals of 2-Dimensional Design

This foundation-level course introduces design for the beginner through the application and understanding of 2-dimensional elements and principles. Course offers preparation for beginners and professionals in several design areas. Weekly achromatic (non-color) projects deal with fundamentals of line, space, directional movement, balance, value, texture, pattern, and monochromes. Confidence in hand skills is developed and a final project in the student’s area of interest is required. Students gain exposure to a range of current and historical design forms. Class includes studio time, slide lectures, and critique.

Prerequisite: None (may be taken concurrently with XGRD1101 Color Theory & Design)

First class materials for Blake: 8 1/2"x11" paper, 2H pencil, 2" x 18 " clear plastic grid ruler, black chisel-point marker, micro fine-line black pen, pencil sharpener, eraser, Pentel brand fine-point white correction pen, 3M correction tape (1/4" or smaller)

Media Literacy
Online Course
This course focuses on the importance of accessing, deconstructing, analyzing and evaluating the media. Students look at the media through an historical lens in order to better understand cultural values presented. Course explores the impact of the media on daily lives and questions what is in the frame, how it is constructed, as well as what may have intentionally or unintentionally left out of view. Through lectures, group discussions, assignments and media presentations, students develop an understanding of visual language and the ability to decode the symbols transmitted via the media. Please note: Course takes place completely online in an asynchronous environment. Material will be uploaded weekly on Monday evenings, 7:00pm (Pacific Time). Login information will be forwarded following student registration.

Enrollment deadline: Mon., 2/1/2016.

SPECIALIZATION TRACK COURSES:
(LISTED BY COURSE #)

Web Design I
Students learn by real-world example, in-class projects, and lecture how to successfully approach any design and technology project for the Internet, whether an international music company or a small single person site. Course covers the creative, strategic, and technological aspects of the medium. Students learn how to execute a project from start to finish combining the essential elements of creating a launch strategy, stealth design, and best practices in technology, communication, and integration. Course is geared toward arming students with real-world skills, and includes design critiques and studio time with the instructors, as well as “Golden Rules” business practices that will make any project undertaken a smashing success.

Prerequisite: Basic knowledge of Photoshop and PowerPoint. Note: HTML is not necessary but a like skill will be necessary for real implementation.

Digital Imaging III
This course is designed for students who have experience in image manipulation on the Mac. Students have the opportunity to create original art using various programs. Instruction focuses on creating and editing images from input devices such as digital cameras, color scanners, and film scanners. Students learn publishing and layout techniques for various output options including color laser and wide format. Course offers real-world solutions for professionals and artists. This hands-on course is taught in the Otis computer lab, and includes additional lab time on a sign-up basis at no additional cost.

Video Editing I
This hands-on course provides a strong introduction and foundation in nonlinear video editing skills and techniques. Editing software such as Final Cut Pro is used to create projects that focus on continuity, screen direction, and narrative clarity. Technical topics covered include: capturing and logging, organizing workflow, building rough cuts by working with timelines and clips, refining rough cuts through the use of trimming, refining edit points, and applying transitions. Working in small teams, the class’s primary project is a short narrative silent video, which is then used as the basis to explore editing approaches and techniques. Using the same footage, each student creates their own edit of the narrative, refining and focusing it over the course of the term. Hands-on tutorials reinforce technical editing concepts introduced in lecture and demonstrations. Films and videos that demonstrate key concepts from lecture material are screened and discussed. Students also learn basic terminology and receive an overview of career options in the editing field.

Motion Graphics II

This course explores advanced concepts of motion design as they relate to the use of Adobe After Effects on the Mac. Course reinforces many of the best practices and techniques learned in Motion Graphics I along with introducing new ones. Guided tutorials are used to help students learn helpful production methods and effects. Each class session involves lectures, technical demonstrations, and professional examples of motion graphics used in broadcast media. Assignments cover the advanced use of After Effects tools, composition and design, storyboarding, project planning, and adding both music and sound synchronization. Course offers real-world solutions for professionals and artists. This hands-on course is taught in the Otis computer lab, and includes additional lab time on a sign-up basis at no additional cost.

**Digital Storytelling**

In this hands-on workshop, participants use digital tools to tell their own ‘true stories’ in a compelling and emotionally engaging form. They produce a two- to five-minute video narrative, combining words, images, music, and other media to artfully present a message. Projects may include memoir, description, and informative prose, among many other possibilities. Course also covers brainstorming and storyboarding techniques. (Note for Educators Track participants: This prototype assignment serves as a template that can be replicated in the classroom with many variations: narrative about literary characters, historical figures and events, instructional guides, etc.)

Introduction to Graphic Design

This foundation course familiarizes students with the basic principles of composition, design methodologies, and career options in professional visual communication design. Through weekly hands-on assignments and in-depth slide lectures on layout, typography, symbol design, photography, digital imaging and illustration, students become acquainted with a wide variety of topics in contemporary graphic design. This is an excellent course in which to start building a professional design portfolio. Students can complete their assignments using their own computer or by traditional techniques that are discussed by the instructor in conjunction with each assignment.

This course explores digital photography techniques for fine art, portrait, editorial, and documentary genres of image-making. Students use digital cameras in manual mode and a variety of program modes, while focusing on composition, exposure, and working with available and artificial light. Course covers use of Adobe Photoshop Lightroom image management software to edit and organize images, as well as planning workflows to help the photographer successfully satisfy project requirements portraying subject, space, and idea. This course is presented in a ten-week blended format including seven face-to-face meetings and three online meetings. Students work with their own DSLR camera or mirrorless digital camera. One face-to-face meeting is a photo shoot field trip. All other face-to-face class meetings are held in the Otis computer lab. Students enrolled in the course can access the computers and software in these facilities outside of class meetings. The course’s online modules can be accessed from any computer with an Internet connection.

Prerequisites: Introduction to Photography or equivalent experience.

First class materials: Digital SLR camera or digital mirrorless camera with capability to function in fully manual settings, save images in RAW file format, and accept interchangeable lenses.

FASHION DESIGN CERTIFICATE PROGRAM is a sequence of 18 courses for those beginning a new career, augmenting an existing career, or seeking to enhance their existing art and design skills. The program is geared for the adult learner and is designed to prepare students for an entry level position in the fashion industry as a fashion designer (SOC 27-1022*), designer’s assistant (SOC 27-1022*), or patternmaker (SOC 51-6092*).

The program meets the professional industry standards outlined by Otis School of Fashion Design, the leading educational program nationwide. Study begins with the development of an understanding of design in dress, and leads to a translation of that knowledge into practical manufacturing requirements. Courses provide intensive, practical training leading to the development of a professional portfolio.

THE 18 COURSE SEQUENCE

Foundation Courses [4]:
- XDWG1001 Drawing & Composition
- XGRD1101 Color Theory & Design
- XGRD5012 Fundamentals of 2-Dimensional Design
- XDWG1014 Life Drawing

**CORE COURSES:**

**Introduction to Fashion Design**

**California Market Center Campus**

Focusing on the world of fashion and the fashion business, this course covers how fashion apparel is designed, manufactured, marketed, and distributed. It is designed to capture the dynamics of the fashion industry, with its many components and possible career opportunities. Global suppliers to apparel manufacturers and the technological changes within the world of fashion are explored. Students are encouraged to investigate this ever-changing industry and the retail market it serves. Is it working? How does a designer meet consumer demand?

**Prerequisite:** *Fashion Design, 3rd Edition, by Sue Jenkyn Jones and note-taking materials*

**First class materials:** TBD

*January 30 – April 23 (no mtg. 3/26)*  
*Sat 11:00am–2:00pm / 12 sessions / 18 students*

Sewing I
California Market Center Campus

This course introduces both general sewing techniques and the operation of industrial power machines. Students learn the theory of accurately sewing various parts of a garment together according to industrial standards. Students are assigned specific clothing projects.

Prerequisite: XFSH3001 Introduction to Apparel Construction

First class materials: 1 yard muslin, fabric scissors, #17 plain straight pins, pin cushion, tape measure, #2 pencil, 2” x 18” clear ruler, notebook; Required text – The Art of Fashion Draping, (3rd or 4th Edition, Amaden-Crawford)

February 4 – April 28 (no mtg. 3/24)

Instructor: Pam Banks
XFSH3014
Patternmaking I
California Market Center Campus

Students learn to flat patterndraft from sketches, using approved slopers. In today’s industry, this is the fastest and most commonly used method. Students begin with seamless blocks, draft the pattern on dotted paper, add seams, and then transfer to manilla for a final hard paper pattern, including an appropriate patterncard. Assignments include sewing the finished pattern in muslin, checking the fit on the dress form and making corrections to the pattern. Mirroring industry techniques, students develop skills expected of a designer and/or a first-pattern patternmaker.

Prerequisite: XFSH3019 Sewing I, XFSH3014 Draping I

Fashion Style Icons and Designing from Historical Elements*

Otis Online Course at Kadenze.com

This course identifies and profiles well-known representations of personal fashion style through history, showing examples of their ‘looks’ and clothing choices and how these ideas and garments influenced the public and the fashion designers predestined to dress them. The cyclicity of fashion styles and elements will be explained and referenced; showing how under the label of original thought and creation often lies details and ideas from the past. To better follow and understand this process, the development of a “creative journal” will be facilitated and guided, requiring the gathering of images, details, and inspiration notes. Demonstrations will be made on basic sketching and interpretive drawing, to allow the exploration of offshoot ideas. At the core of blending research and creativity is the development of a ‘design eye’ that will transform understanding of the world of Fashion and the mining of ideas. Course culminates in a personal creative exploration project in fashion design wherein a capsule collection of garments are sketched or otherwise rendered incorporating elements from the journals’ body of research.

Logos, Symbols, and Letterforms
This professionally oriented course focuses on what might be considered the essence of visual communications—the symbol. Through weekly slide lectures and assignments, students explore a wide variety of considerations involved in developing effective iconography, from reductive corporate logos to more complex logotypes. This course covers such areas as elements of a successful logo, design stationery systems, selecting identity colors, and creating customized letterforms and fonts for logotype or title use. Students can produce their assignments using their own computer or by traditional methods discussed in class.

Final Portfolio
For advanced students enrolled in the Computer Graphics or Graphic Design certificate programs. In this course students create a portfolio from work produced throughout their course of study. The instructor provides individualized critique regarding technical and conceptual development and offers guidance for developing an effective portfolio. Also covers presentation skills. Students work independently and meet with the instructor weekly.

Prerequisite: Students must enroll during their last semester, prior to graduation.

### Package Design

This course explores the package design basics necessary for translating two-dimensional graphic design concepts across three-dimensional structures and surfaces. The course examines the use of packaging components such as glass, metal, cardboard, paper, and unusual materials, offering a broad spectrum of creative choices for design solutions. Course provides an overview of production methods, product/package market positioning, and environmental concerns of packaging materials. Topics include the history and environmental impact of packaging, food packaging, multi-packs, line extensions, packaging of intangible products, packaging for branding, and design for reducing waste. Each student would create three different packaging concepts and designs, varying in scope, length, and depth.

### Introduction to Letterpress

In this course students are introduced to the basics of letterpress printing for the Vandercook proof press including hand typesetting, typography, composition, locking up, printing, and distribution. Students also create a multi-color reduction linoleum block project, which covers registration, printing, and color separation techniques. The Otis Lab Press is a fully functioning studio with four Vandercook proof presses and over 200 typefaces. Established in 1984 by Sheila de Brettville as part of the Communication Arts Department, the Lab Press has a rich history of small edition book publishing. Students actively participate and produce award-winning books that have become a permanent part of the university rare book collections throughout Southern California.

**Prerequisite:** None

**First class materials:** $20 materials fee payable to instructor; supply list of additional materials provided at 1st class mtg.

### Digital Letterpress

A studio course in letterpress printing with photopolymer plates, held at the Otis Laboratory Press. This course covers all aspects of this revolutionary new process for the relief printing of digital imaging (digital-to-analog) – from digital prepress and plate processing to letterpress printing. Demonstrations include digital imaging requirements and font-editing, processing with the plate making machine, and presswork on the Vandercook flatbed cylinder press. Also covers related investigative and exploratory printing and typographic techniques. Previous experience with image-editing and page-layout software is required. Prior letterpress experience suggested.

**Prerequisite:** XGRD5005 Introduction to Letterpress or equivalent experience

**First class materials:** $35 materials fee payable to instructor at 1st class mtg.

Visual Storytelling through Comics

Visual storytelling is a key component of comics, movies, TV, animation, and even graphic design. If you read or see images in sequence, concepts of visual storytelling apply. In this course, students use the medium of comics to learn skills to help them make a better graphic novel, film, cartoon, web page, or poster. What are the implications of the reader controlling how fast you digest a comic as opposed to the filmmaker who controls how fast you get information in a movie? How do the design of the page and the arrangement of the panels affect the read of the story? Course also covers creating good compositions and how the different elements create meaning. Focus is on creating comic strips, short illustrated books, and comics pages.

Prerequisite: None

First class materials: Note-taking materials; required books: Comics and Sequential Art by Will Eisner and one graphic novel to-be-decided. Anticipated cost is around $25.
Illustrating Children’s Books: An Intermediate Course

This course focuses on illustrating novels, graphic novels, series books, and digital books for children. Designed as a job shopper’s training and critique group, students in this intermediate/advanced course research the field by submitting proposals and connecting with art directors at magazines, zines, and publishers. Through hands-on assignments, lectures, and critiques, students continue to examine aesthetic and technical aspects including text analysis, concept development, character studies, and storyboarding. Also covers portfolio preparation and how to get jobs in today’s market.

Prerequisite: XILU6009 Illustrating Children’s Books or consent of instructor

First class materials: Note-taking materials. Also, please bring any rough sketches you would like to discuss, as well as a children’s book, which has caught your fancy!

INTERIOR DESIGN CERTIFICATE PROGRAM is a sequence of 18 courses intended for individuals beginning a new career, augmenting an existing career, or seeking to enhance their existing art or design skills. The program is geared for the adult learner and is designed to meet professional industry standards. Study begins with the development of an understanding of foundational design theory and leads to a translation of that knowledge into practical interior design requirements. Courses provide intensive, practical training leading to the development of a professional portfolio. The program is intended to prepare students for an entry-level position as an interior designer or decorator (SOC 27-1025*). Students may select full-unit courses from the Lighting Design Certificate program to receive elective credit.

THE 18 COURSE SEQUENCE

Foundation Courses [4]:
- XDWG1001 Drawing and Composition
- XGRD1101 Color Theory & Design
- XGRD5012 Fundamentals of 2-Dimensional Design
- XINT3000 Fundamentals of 3-Dimensional Design

Core Courses [12]:
- XINT7010 Introduction to Interior Design
- XINT7200 Drafting I
- XINT7300 Design Studio I
- XINT7016 Perspective Drawing
- XINT7017 Surface Materials & Presentation Techniques
- XINT7205 AutoCAD for Interior Design
- XINT7201 Drafting II
- XINT7301 Design Studio II
- XINT7012 History of Interior Design and Furniture
- XINT7040 Space Planning
- XINT7060 Interior Lighting Design
- XINT7302 Design Studio III

Fundamentals of 2-Dimensional Design

This foundation-level course introduces design for the beginner through the application and understanding of 2-dimensional elements and principles. Course offers preparation for beginners and professionals in several design areas. Weekly achromatic (non-color) projects deal with fundamentals of line, space, directional movement, balance, value, texture, pattern, and monochromes. Confidence in hand skills is developed and a final project in the student’s area of interest is required. Students gain exposure to a range of current and historical design forms. Class includes studio time, slide lectures, and critique.

Prerequisite: None (may be taken concurrently with XGRD1101 Color Theory & Design)

First class materials for Blake: 8 1/2” x 11” paper, 2H pencil, 2” x 18” clear plastic grid ruler, black chisel-point marker, micro fine-line black pen, pencil sharpener, eraser, Pentel brand fine-point white correction pen, 3M correction tape (1/4” or smaller)

First class materials for Osherow: Sketchbook, pencil, ruler, medium and broad point black felt markers

Drafting I

An introduction to the drafting methods and techniques used to create floor plans and elevation views for interior design. In this course students learn to use the basic tools and procedures of drafting to develop effective interior design plans. Course covers tools and applications; practical use of architectural measurement and scale; use of dimensioning methods; and the development of legends. Explores how to incorporate design ideas into a practical plan format to fully realize the interior concept. Students design a unique 800 square foot Minimalist micro mountain retreat, as a vehicle to learn critical drafting methods and techniques. Emphasis is on developing design concepts.

Prerequisite: None

First class materials: One each of the following – 14” 30-60 STD triangle, 8” 45 Degree STD triangle, 12” triangle (Arch Hand Scale), H Mars-Lumograph pencil, 2H Mars-Luograph pencil, Sanford Tuff Stuff eraser, Sanford Tuff Stuff Eraser Refill (2-Pak), erasing shield, Ames Lettering Guide, Pocket Pal Template, 8 sheets of 24” x 36”, 16lb. plain clearprt Vellum, 1 roll of Drafting Dots

Design a House in Revit Architecture 2016

This is a hands-on course designed to quickly get designers up and running in Revit Architecture through the design of a typical two-story house from Schematic Design to Construction Documents. Skills learned in this course form a solid foundation for using the software. Course also covers concepts of Building Information Modeling (BIM), as well as working on large scale projects within a team setting. After completing the course, students will be able to: describe the benefits of Building Information Modeling; use the fundamental features of Revit Architecture 2013; use the parametric 3D design tools to design projects; use presentation tools for presenting models; create construction documentation; create detailing and drafting views.

Prerequisite: Previous knowledge of architectural design, drafting, or engineering experience is highly recommended.

First class materials: TBD

The Art of the Edible Landscape

An essential course for anyone who is currently designing an edible landscape garden, or working in any aspect of sustainable design. In this course, you’ll learn how to create a multi-function garden, which is well-designed, in addition to producing high yields of healthy organic food. You’ll learn how to evaluate a site, create a plan which functions well for the people who use the site, select heirloom vegetable varieties that match your growing conditions, and design a garden that is attractive and productive throughout Southern California’s year-round growing season. Class will include aspects of sustainability such as Permaculture design, on-site composting, water efficiency, rainwater harvesting, pollinator-attractant flowers, and free or low-cost building materials.

Prerequisite: None

Lighting Design

LIGHTING DESIGN CERTIFICATE PROGRAM provides intensive study in lighting design for individuals who are beginning a new career, making a career change, or seeking to enhance their existing art or design skills in a related field. The program combines the theoretical study of lighting conditions and effects with the acquisition of technical skills about the design of lighting systems in both indoor and outdoor spaces. The program intends to prepare students to enter and become a lighting designer (SOC 27-1025*) or to augment their current design practices and experience.

THE COURSE SEQUENCE

Prerequisite Courses [3]:
Students must complete the following three courses prior to beginning the core courses, or have equivalent knowledge.

XINT7200 Drafting I
XINT7201 Drafting II
XINT7205 AutoCAD for Interior Design

Core Courses [5]:

XALI362 Lighting Fundamentals
XALI366 Light, Health, and Global Responsibility
XALI471 Advanced Lighting Design
XALI472 Luminaire and Control Technologies
XALI474 Lighting Internship

ESTIMATED PROGRAM COST

The estimated program costs listed below are based on students completing two courses per term (four terms) over a two-year period.

Certificate Application: $175
Tuition: $5,205 ($3,475 without Prerequisites)
Fees: $156
Supplies & Books: $1,000
Total: $6,536 ($4,806 without Prerequisites)

Note: Certificate program courses are open to all students. Students, interested in taking certificate program courses for professional growth or personal development, are welcome to attend. For further information, or to speak with a counselor, please call 310-665-6850.

All courses take place at Otis College of Art and Design’s Elaine & Bram Goldsmith Campus, unless otherwise noted.

PREREQUISITE COURSES:

Drafting I

An introduction to the drafting methods and techniques used to create floor plans and elevation views for interior design. In this course students learn to use the basic tools and procedures of drafting to develop effective interior design plans. Course covers tools and applications; practical use of architectural measurement and scale; use of dimensioning methods; and the development of legends. Explores how to incorporate design ideas into a practical plan format to fully realize the interior concept. Students design a unique 800 square foot Minimalist micro mountain retreat, as a vehicle to learn critical drafting methods and techniques. Emphasis is on developing design concepts.

Prerequisite: None

First class materials: One each of the following – 14” 30-60 STD triangle, 8” 45 Degree STD triangle, 12” triangle (Arch Hand Scale), H Mars-Lumograph pencil, 2H Mars-Luograph pencil, Sanford Tuff Stuffer eraser, Sanford Tuff Stuff Eraser Refill (2-Pak), erasing shield, Ames Lettering Guide, Pocket Pal Template, 8 sheets of 24" x 36”, 16lb. plain clearprint Vellum, 1 roll of Drafting Dots

Drafting II

Students continue exploring the drafting methods and techniques learned in Drafting I, to create floor plans and elevation views for commercial interior design. In this course students further develop their drafting skills in order to create effective interior design plans. Explores how to incorporate design ideas into a practical plan format to fully realize the interior concept. Emphasis is on developing design concepts for commercial applications including office, restaurant, and retail spaces.

Product Design

PRODUCT DESIGN CERTIFICATE PROGRAM is a sequence of 18 courses intended for individuals beginning a new career, augmenting an existing career, or seeking to enhance their existing art or design skills. The program is geared for the adult learner and is designed to meet professional industry standards. Study begins with the development of an understanding of foundational design theory and leads to a translation of that knowledge into practical product design requirements. Courses provide intensive, practical training leading to the development of a professional portfolio. The program is intended to prepare students for an entry-level position as a product designer (SOC 27-1021*).

THE 18 COURSE SEQUENCE

Foundation Courses [4]:
Students must complete the following four courses prior to beginning the core courses, or have equivalent knowledge.

> Drawing and Composition
> Introduction to Product Design
> Fundamentals of 2-Dimensional Design
> Introduction to Digital Design

Core Courses [13]:

> Perspective Drawing
> Product Design Studio I: Small Hardgoods
> Fundamentals of 3-Dimensional Design
> Introduction to 3D Digital Modeling
> Visual Communication I
> Product Design Studio II: Large Hardgoods
> Intermediate 3D Digital Modeling
> Sculpting and Quick Mock Up Construction Techniques I
> Visual Communications II
> Product Design Studio III: Softgoods
> Advanced 3D Digital Modeling
> Model Making: Advanced Materials and Construction Techniques II
> Professional Practices: Design Your Future

Drawing & Composition

This beginning course develops skills in the elements of drawing and composition. Through demonstration, class exercises, and critiques, students explore concepts including contour line, cross contour, modeling, uses of marks to show form and space, perspective, scale and measurement, and positive/negative space.

Prerequisite: None

First class materials for Adams: One box of Staedler Mars graphite pencils 6H to 8B; one roll of drafting tape or artists tape (low tack tape), 1/2” thick; one Staedler Mars white plastic eraser; one pencil sharpened; one Masonite drawing board with two clips and pink rubber band (large enough to hold an 18” x 24” sketch pad; one 18” x 24” Strathmore recycled drawing tablet (dark green cover) or Strathmore drawing tablet (brown cover)

First class materials for Bledsoe: 18” x 24” newsprint pad, drawing board, 9” x 12” sketchbook, charcoal pencils (HB, 2B, 4B), graphite pencils, ebony pencil, kneaded eraser, retractable knife, pencil sharpener

First class materials for Jones: Drawing board; 18” x 24” sketchpad (Strathmore, Canson, Aquabee); 11” x 14” sketchbook; Charcoal pencils: hard (HB or B), medium (2B or 4B), soft (6B or 8B); Pastel pencils: Faber-Castell “PITT” or Stabilo “CarbOthello” pencils, NO Conte’ pastel pencils; Pastel colors: dark sephia in PITT and one or two other dark earth-tones, blues, reds; Colored pencils: Faber-Castell “Polychromos” and Berol “Prisma-color” Colors: two or three in dark colors (black, reds, blues, etc.; Do not get watercolor versions of these pencils); Kneaded rubber eraser; Eraser shield; Razor blades; Small piece #100 sandpaper (3” x 4”); Chamois; “18” x 2” “See-Thru Ruler” (plastic)

Introduction to Product Design

A course designed to build an understanding of the product design process used by professional designers around the world. Course explores major steps including research and analysis, concept generation, design development, engineering principles, material fundamentals, mechanical layout, ergonomic principles, 2D design sketching and rendering, 3D model making, and presentation techniques. In this course students design an original product, from initial concept to final design. Students are guided through the design process via weekly assignments and project reviews with emphasis on developing innovative and compelling design solutions. Students develop their skills in the areas of thinking and communication, problem solving, design language, design aesthetics, and the principles of sustainable design. Also covers drawing techniques, perspective, composition, and professional communication techniques.

Fundamentals of 2-Dimensional Design

This foundation-level course introduces design for the beginner through the application and understanding of 2-dimensional elements and principles. Course offers preparation for beginners and professionals in several design areas. Weekly achromatic (non-color) projects deal with fundamentals of line, space, directional movement, balance, value, texture, pattern, and monochromes. Confidence in hand skills is developed and a final project in the student’s area of interest is required. Students gain exposure to a range of current and historical design forms. Class includes studio time, slide lectures, and critique.

**Prerequisite:** None (may be taken concurrently with XGRD1101 Color Theory & Design)

**First class materials for Blake:** 8 1/2”x11” paper, 2H pencil, 2” x 18” clear plastic grid ruler, black chisel-point marker, micro fine-line black pen, pencil sharpener, eraser, Pentel brand fine-point white correction pen, 3M correction tape (1/4” or smaller)

**First class materials for Osherow:** Sketchbook, pencil, ruler, medium and broad point black felt markers

Perspective Drawing

Developed during the Renaissance, perspective was as innovative then as the Internet is today. Perspective enabled artists to create the illusion of depth, volume, and three-dimensional space on a two-dimensional picture plane. Interior design is concerned with the creation of living, working, and hospitality environments. The spaces themselves, as well as their contents, needs to be rendered both two and three-dimensionally. This is accomplished through using grids, floor plans, and one-point and two-point perspective drawings. Floor plans help to illustrate a design concept. One-point and two-point perspective grids help bring the designer’s vision into reality. In this hands-on course, students gather reference photos of furniture, accessories, and plants to fill their rooms, and render them in felt-tip markers. Students work in class every session – bring supplies to all class meetings.

**Prerequisite:** XDWG1001 Drawing & Composition

**First class materials:** 36” metal T-square, 30/60 14” plastic triangle, H, HB, and 2B drawing pencils (two each), drafting dots or masking tape, tracing paper roll (18” wide), 18” x 24” marker pad (Graphics 360), 10, 30, 50, 70, 90, & black felt-tip markers (cool gray), black Tombo brush tip pen, kneaded eraser, hard eraser

Introduction to Digital Design

Learn the basics of computer operation for graphics applications. Instruction focuses on the Mac platform and introduces students to hierarchical structure, graphic interface, and various applications. Students are exposed to a wide array of digital graphics software applications including: Adobe Illustrator, Adobe Photoshop, QuarkXPress, Adobe InDesign, Adobe Flash, and Adobe Dreamweaver. (Please note: software varies depending on course emphasis.) This hands-on course is taught in the Otis computer lab, and includes additional lab time on a sign-up basis at no additional cost.

**Prerequisite:** XCMP9200 Basic Computer Operations or equivalent knowledge

**First class materials for Godwin:** USB Flash Drive; Please test functionality of disk before use.
First class materials for Marinaccio: USB Flash Drive; note-taking materials

Introduction to 3D Digital Modeling: Rhino/SolidWorks

A computer studio course teaches students fundamentals of 3D modeling also known as CAD – Computer Aided Design. Emphasis is on developing the ability to create computer generated objects and products using Rhino and SolidWorks. These digital computer skills enhance the analog hand skills taught in the other studio courses. Projects result in files that can be successfully transferred and executed by a 3D printer also known as rapid prototyping. Simple rendering techniques for 2D execution are also taught as another method of communicating forms and products.

Visual Communication I

A studio course focused on developing mind – eye – hand rapid visualization skills that communicate multiple ideas quickly and delineate form and function clearly. Assignments integrate the intentional use of color to enhance basic line work, resulting in compelling images. Exploration of varied media allows the student to discover their preferred method of communication. Students are encouraged to expand their skills beyond their comfort zone to learn new methods of successful visual communication. Proficiency with multiple media gives the designer a wider range of styles that convey specific messages.

Textile/Surface Design IA

A beginning studio course introducing the design of printed fabrics from initiation of the design to industrial requirement and limitations. This course covers materials and equipment, drawing, painting, transfer technique, research methods and printing processes. Instruction includes discussion and demonstration of the various methods of repeat processes used to create overall design pattern and color mixing and application. Through structured design problems, students execute finished textile design and croquis suitable for a portfolio.

Prerequisite: XGRD1101 Color Theory & Design, XGRDS012 Fundamentals of 2-Dimensional Design

First class materials: Roll brown parcel paper, black India ink, round #3 or #4 paint brush, flat #1 or #2 paint brush, metal ruler, clear grid ruler, two water jars, small well cup palette, tracing paper roll or pad, Xacto knife, pencils, eraser.

Textile/Surface Design IB

This companion course to Textile/Surface Design I: Part A consists of a series of projects focusing on the creation of repeat patterns for various market groups in the textile industry. Students take a design concept and create a marketable group of repeat patterns for each project. Demonstration and discussion is provided on how to problem solve various artistic techniques. Students develop a body of work suitable for their portfolio.

Prerequisite: XGRD1101 Color Theory & Design, XGRDS012 Fundamentals of 2-Dimensional Design

First class materials: Notebook, one sheet of Canson paper (white), masking tape, Gouache (permanent white, ivory black, and three colors of your choice), #6 Winsor Newton Sceptre gold round brush, Winsor Newton 1” flat brush, ruling pen, 15” stainless steel ruler with cork backing.
TEXTILE/SURFACE DESIGN

Textile/Surface Design IIA

An intermediate studio course building on the fundamental mechanics of repeat surface pattern development in Textile/Surface Design IA. Students explore new materials and techniques including transparent dyes on mass paper, use of the ruling pen, and methods for obtaining more visual textures. Areas of specialized design such as turn around repeats, counter change, and turnovers are investigated. Projects such as hand printing on fabric familiarize students with actual printing methods.

Prerequisite: XSRF4012 Textile/Surface Design IA

First class materials: TBD

Textile/Surface Design IIB

This course expands utilization of natural forms and color studies begun in Textile/Surface Design IB. Color awareness, current color trends, and understanding specific needs of specific markets and products are emphasized. Historic research and study are approached as a method of using design and color from the past to create new looks for today’s market. Intermediate level exercises develop drawing and color skills. Portfolio quality croquis and sketches are completed. Includes field trips.

Prerequisite: XSRF4016 Textile/Surface Design IB

First class materials: TBD
Textile/Surface Design IIIB

Students continue to develop drawing skills relating to natural forms and historical reference. Emphasis is placed on more imaginative uses and combinations of media and techniques including batik, overlays, airbrush, and textures. Current color trends for various industries are utilized in development of sketches/croquis.

Digital Design for Textiles

Utilizing knowledge gained in Textile/Surface Design program, this course focuses on how to digitize concepts and designs. Advanced techniques in Adobe Illustrator & Photoshop are demonstrated as they relate to Surface Design. Preparing files for separations and production are also covered. Students take a design concept and create a digital group of repeat patterns suitable for their portfolio. This hands-on course is taught in the Otis computer lab and includes additional lab time on a sign-up basis at no additional cost.

**Prerequisite:** XSRF4012, XSRF4016 Textile/Surface Design IA & IB; XDMA9011 Introduction to Computer Graphics

Fine Arts Certificate Program

**FINE ARTS CERTIFICATE PROGRAM** is a sequence of eight courses intended to provide an introduction to the fundamentals of fine arts as a vehicle for creative self-expression. Taken together, these courses provide an overview of the concepts, language and skills of fine art practice. A strong emphasis is placed on enabling students to develop their personal artistic vision. That vision is facilitated by a close working relationship between faculty and students. This program is designed to prepare students as fine artists including painters, sculptors, and printmakers (SOC 27-1013*).

**THE 8 COURSE SEQUENCE**

The program includes the six core courses outlined below, plus two elective courses. Advisors are available to help students choose elective courses from the Continuing Education catalog. Additional courses are also available for students who wish to pursue their interests beyond the Certificate program.

**Core Courses [6]:**

- **XARH300**  Art Making Through the Ages: A Hands-on Approach to Art History
- **XGRD1101**  Color Theory & Design
- **XDWG1001**  Drawing & Composition
- **XPTG1128**  Introduction to Painting
- **XPHO2010**  Introduction to Photography
- **XSCP1609**  Introduction to Sculpture

**Elective Courses [2]:**

Students may select one-unit courses from the Drawing, Painting, Printmaking, Sculpture, or Photography programs to fulfill elective credit.

**ESTIMATED TOTAL PROGRAM COST**

The estimated program costs listed below are based on students completing two courses per term (four terms) over a two-year period.

- **Certificate Application:** $175
- **Tuition:** $3,440
- **Fees:** $156
- **Supplies & Books:** $2,000
- **Total:** $5,771

**Note:** Certificate program courses are open to all students. Students interested in taking certificate program courses for professional growth or personal development, are welcome to attend. For further information, or to speak with a counselor, please call 310-665-6850.

**All courses take place at Otis College of Art and Design's Elaine & Bram Goldsmith Campus, unless otherwise noted.**

**CORE COURSES:**

**Art Making through the Ages: A Hands-on Approach to Art History**

In this course, students deepen their creative abilities while exploring significant artistic achievements from pre-history through contemporary times. Throughout human existence, art making has been one of the most tangible expressions of our highest aspirations and deepest emotions. The arts are an essential aspect of all societies and cultures – people the world over have mirrored, decorated, critiqued, and even changed society through their creative works. Course explores major achievements throughout the ages including pre-history, Middle Ages, the Renaissance, Impressionism, Expressionism, Fauvism, Pop, and contemporary art. This unique approach provides an opportunity for students to enhance their own work through hands-on art exercises, while expanding their knowledge of art history.
Color Theory & Design

An essential course for anyone pursuing or currently working in any art or design field who must communicate effectively with color. Confidence and skill are developed through weekly color-mixing exercises and homework projects using gouache. Through lecture, demonstration, critique, and practical experience, students investigate color theory, historical color comparison, color in nature, and analyze masterpiece color. Lectures include the phenomena of color and light and the use of color as a marketing tool.

Introduction to Painting: Materials & Techniques

An introduction to the basic skills and processes of rendering an image in paint. Students work with simple subject matter, including still life, reproduction, abstraction, and landscape. Emphasis is on craft with special attention given to the role of contrast in seeing, color as value, color mixing, paint as material, and the process of building the surface. Students use oil or acrylics. Course may be repeated.

Prerequisite: XDWG1001 Drawing and Composition or equivalent experience.

First class materials: 1 tube black oil paint, 1 tube white (Titanium) oil paint, 1 canvas board (16” x 20” or 11” x 14”), 1 can turpenoid or Gamsol, 1 flat oil painting bristle brush small (size 2 or 4), 1 flat oil bristle brush medium (size 6 or 8), 1 flat oil bristle brush large (size 10 or 12), paper towels, bar of soap

Drawing on the Right Side of the Brain

In this hands-on workshop students learn to draw with techniques based on the work of Betty Edwards, author of the renowned book, Drawing on the Right Side of the Brain. Course begins with an introduction to the theory of Drawing on the Right Side of the Brain and follows a step-by-step process specifically designed for individuals who have never drawn before. The fundamental premise is that anyone can learn to draw if provided with proper guidance. Students develop their perceptual skills (ability to see) through exercises focusing on contour line, positive/negative space, sighting, and light/shadow relationships. Combines lecture and studio exercises in a nurturing and supportive environment. Materials list provided at first meeting.

Life Drawing II

A continuation of Life Drawing I, this intermediate/advanced level studio course emphasizes traditional drawing media and color drawing/painting techniques. Working from the human figure, this course begins with gestural and dynamics drawing, anatomical instruction, structural proportions, and material exploration. The human anatomy using the model, the skeleton, and reference material will be emphasized. Sequenced instruction on anatomical elements provides rigorous training in analyzing complex visual relationships, observation, and the use of anatomy as an element in building the human form. Each class begins with 20-25 minutes of 1, 2, or 3 minute gestures. Materials include graphite, charcoal, pencil, pen, colored pencil, water media, and color media (computer tablets are also welcome). Though most drawings will be done on newsprint, students have the option of working on any paper that they would like. Focus is on life drawing development and artistic direction.

**Prerequisite:** Life Drawing I

**First class materials:** 18” x 24 Newsprint pad, drawing board, 9” x 12” sketchbook, charcoal pencils (HB, 2B, 4B), kneaded eraser, retractable knife. Paper options for large drawings will be discussed on first day. Large boards will be provided.

Graphite I for Botanical Illustration

Learn to observe and draw plants with accuracy. This hands-on drawing course enables students to develop perceptual acuity, analyze the role of light on form, and use tonal value skills that are essential in drawing any subject. Classes are held at The Los Angeles County Arboretum and Botanic Garden in Arcadia. This course is suitable not only for beginners but also for those students with extensive drawing experience. Course includes demonstration, class discussion, and critique.

Prerequisite: XDWG1001 Drawing & Composition

First class materials: 14” X 17” Strathmore Drawing Pad Series 400, Medium (no sketch or recycled paper; you can use another brand), 14” X 17” Medium Weight Tracing Paper (any brand), 3 Drafting Pencil Holders and 1 Sharpener, Leads: 2H, HB and 2B leads (at least 2 each), Eraser Stick, Erasing Shield, Drafting Brush, Mars Drafting Dots (masking tape), Portable Task Light (Ott-Lite), (Vis a Vis wet erase fine point marker, Clip, 8” X 10” Plexi and 8” X 10” format supplied by teacher for $10.00)

Recycled Objects: Collage, Assemblage, and the Found Object

There is a rich tradition of artists using easily accessible and recycled materials in their work. This course explores formal concerns of composition, materials, and scale, as well as issues related to content, meaning, and interpretation, and their application to both words and images. Students begin by making smaller two-dimensional works and progress toward larger, more complex individual projects. Course encompasses a range of mixed media forms (including newspaper, found objects, and old magazines) and may include forays into assemblage and installation. Explores works by artists including Suzanne Duchamp, Hanna Hoch, Joseph Cornell, Lee Krasner, Robert Rauschenberg, Mark Bradford, and other contemporary artist pushing the boundaries.

Drawing and Meditative Mindfulness

Current research in neuroscience has demonstrated that meditative mindfulness practice can sharpen perception, creativity, and intuition, as well as increase attention and nonjudgmental awareness. This course for beginners and advanced alike, explores what drawing and mindfulness awareness meditation have in common. Both practices cultivate a state of mind where direct perception and the experience of the present moment are unfiltered by concepts and ideas. Through short exercises in mindfulness awareness practice and guided meditation sessions, students naturally develop the formal skills related to key elements of drawing. As a result, an understanding of composition, contour, gesture, value, mark-making, perspective and color relationships is enhanced through the meditative mind. Each class includes instruction in mindfulness meditation and hands-on exercises in drawing from observation with discussions, demonstrations, and critical analysis. Course also explores a variety of drawing materials and subject matter.

Paint Like a Folk Genius

Are you compelled to tell a story through your artwork? Does your work reveal messages to the viewer? Explore the whimsical and intriguing works of folk and outsider artist/storyteller geniuses, as you create and hone your own personally inventive style. “Pure” folk artists such as Grandma Moses and Henry Darger have become popularly thought of as naturally gifted. Occasionally a self-taught artist such as Henri Rousseau became thought of as a master artist. Some of the greatest narrative painters such as Picasso and Frida Kahlo took inspiration from such untrained artists who worked in styles outside of the mainstream. Contemporary artists, such as Kara Walker and Faith Ringgold, borrowed a folk craft that later became seen as “high” art; while artists such as Basquiat and Keith Haring have become well known for creating art that looked like it could have been folk art. In this class, participants of all skill levels are guided to complete a minimum of three cohesive artworks during the course. As a learning method, less experienced participants will be guided to select, and imitate three “master” folk artworks. Students receive plenty of individualized guidance to help each participant further develop their own unique vision and style – be it simple or complex. Although all mediums are welcome, acrylics are recommended for beginning students. Course also entails a light amount of weekly readings, short slideshow lectures, class discussion, and critique.

Acrylic Painting Techniques

An introductory course focusing on acrylic painting techniques. In this course, students explore use of brushstroke, grounds, mediums, palette knife, and varnishes for various effects including glazing, layering, dry brush, and impasto. Also covers color mixing and theory, optical blending, composition, value, and texture. Students experiment with techniques such as splatter, mixed media, and resist.

Prerequisite: Drawing & Composition

First class materials: Bring all painting materials that you already own for class discussion, including palettes, paper towels, a large water container, one 16” x 20” canvas
The Process of Abstraction

This ten-week course demystifies the process of abstract painting as students develop their own contemporary painting style. Course explores abstraction that is painterly, hard-edged, referential, minimal, constructed, and de-constructed. Examines techniques used by abstract painters, as well as methods used by contemporary artists. Students use acrylics and various mixed media materials.

Painting Workshop

An intermediate/advanced class that works with still life, live model, reproduction and abstraction, emphasizing development of individual techniques and continuity of style. Class paints in acrylic and/or oils on canvas, though other media and type of surface are acceptable. Appropriate paint surfaces, paint mixing and handling, and related tools of the trade are explored. Emphasis is on creativity, risk-taking and problem-solving. Each student completes several works and develops a strong sense of direction and meaning in his/her painting. Course may be repeated.

Intermediate Oil Painting: The Emerging Artist

In this intermediate level course, students expand their painting techniques, while focusing on subject matter from figuration to abstraction. Students further explore practical techniques of building a ground, color mixing, capturing form, as well as when to employ tightness versus looseness. With an emphasis on safe studio practices, this course also covers techniques (used by Rembrandt and Velasquez) that minimize exposure to toxic chemicals. Course also emphasizes techniques for creating bodies of work for professional exhibitions.

Encaustic: Paint and Collage in Wax

Visual design and painting techniques such as color, composition, and form art taught through the medium of encaustic painting. Encaustic painting uses hot wax and is applied in layers to create landscapes, portraits, or abstract images. Students can paint and collage – combining papers, fabric, photographs, leaves, and found objects to make original and expressive work. Encaustic painting is completely unique, producing depth and luminosity that other mediums cannot achieve. Using the skills learned in this course, students enhance their ability to create imaginative work and to further tap into their creative abilities.

Watercolor Painting

Open to beginning through advanced students this course explores the techniques, styles, and materials, which are unique to watercolor painting. Course focuses on layering of color to create contrast and texture in a two-dimensional composition. Also examines characteristics of transparent pigment, color mixing, basic brushstroke, and painting techniques. Covers different weights and textures of paper, as well as the tools needed to complete the job. Course emphasizes the basic rules of good design. Projects are designed to expose students to various challenges specific to the medium.

Prerequisite: None
First class materials: Transparent watercolors: ultramarine blue, winsor violet, winsor yellow, winsor red; #8 round watercolor brush (sable, sable mix, or synthetic), pencil, kneaded eraser, paper towels, water bucket, palette (Robert Wood or one of similar size – round or rectangle), 12” x 16” block of 140 lb. cold pressed watercolor paper or a single large sheet

Silkscreen
This course introduces artists to screenprinting, one of the most versatile print mediums. Students gain a complete understanding of materials – from coating and exposing a screen, to registration, use of stencils, and mixing inks. Direct emulsion photo screens allow students to work from hand made, photographic, text oriented, or digitally produced image sources. Students work with a variety of applications including paper, fabric, plastic and wood. The course also covers historical and contemporary artists working with this medium.

Introduction to Letterpress
In this course students are introduced to the basics of letterpress printing for the Vandercook proof press including hand typesetting, typography, composition, locking up, printing, and distribution. Students also create a multi-color reduction linoleum block project, which covers registration, printing, and color separation techniques. The Otis Lab Press is a fully functioning studio with four Vandercook proof presses and over 200 typefaces. Established in 1984 by Sheila de Brettville as part of the Communication Arts Department, the Lab Press has a rich history of small edition book publishing. Students actively participate and produce award-winning books that have become a permanent part of the university rare book collections throughout Southern California.

Prerequisite: None

Digital Silkscreen: Creating Large Format Posters
Using computer-generated photo images, which can be translated to photo-emulsion screens, students learn to make large-format silk-screened posters. The course covers one color, multiple color passes, registration methods and editions. Also covers the history of poster production and historic types of hand-cut silkscreen stencils. Using this versatile and rich method of communication and self-expression, students produce at least two projects, including an edition of 10 each.

Prerequisite: Basic computer experience
First class materials: TBD
Digital Letterpress

A studio course in letterpress printing with photopolymer plates held at the Otis Laboratory Press. This course covers all aspects of this revolutionary new process for the relief printing of digital imaging (digital-to-analog) – from digital prepress and plate processing to letterpress printing. Demonstrations include digital imaging requirements and font-editing, processing with the plate making machine, and presswork on the Vandercook flatbed cylinder press. Also covers related investigative and exploratory printing and typographic techniques. Previous experience with image-editing and page-layout software is required. Prior letterpress experience suggested.

Stone Sculpture

Students learn the hand carving techniques used in sculpting stone including drilling, roughing out, shaping, finishing, and detail work. Course examines the properties of different types of stone including marble, alabaster, sandstone, limestone, and granite. Strong emphasis is placed on sculptural form, surface, and artistic expression. Course also covers a brief overview of the history of stone sculpture, from prehistoric through contemporary times. Students may work in either alabaster or limestone.

FINE ARTS • SCULPTURE
Welding/Metal Sculpture

Students receive instruction on the visual and physical properties of metal and various welding techniques and applications. Course focuses primarily on the use of steel for student projects. Emphasis is placed on maintaining a safe environment in which to weld. Covers welding procedures including gas, brazing, arc, MiG, TiG, and plasma cutting. Also covers shaping and fabricating tools and techniques. Students work on their own individual projects during class. Instructor guides students to create projects based on skill and equipment restrictions. Each student completes one welding project.

Prerequisite: None

First class materials: First class period is a lecture with no hands-on practice. Further discussion, handouts and materials list will be provided. Students supply all metals and materials for individual projects; some practice metals will be supplied by instructor.

Introduction to Glass Fusing*

At the Skirball Cultural Center

The technique of glass fusing dates back to ancient Egypt and Rome. Glass fusing is the binding of two or more pieces of compatible glass with heat. At temperatures of 1450F to 1700F degrees the pieces merge together to form one piece of glass. Lower temperatures can produce a variety of textural effects. The raw materials come in sheet, rod, frit and powdered glass form and through a variety of techniques can be turned into elements for sculpture and jewelry. This one-day class introduces students to visual and elemental properties of glass. Students are also instructed how to use basic glass cutting tools to create a variety of organic as well as geometric shapes. Students may select from a wide array of fused glass colors and dichroic glass and will have the opportunity to begin to explore this versatile medium through creating several pieces that could be used as pendants, brooches, earrings or cabochons at a later time. Also includes a PowerPoint presentation.

Prerequisite: None

First class materials: $25 lab fee covers the cost of materials and firing for the class projects. (Projects will be fired at instructor’s studio and returned to students via mail.) Bring a small USPS priority mail box to class with self-addressed label. Loaner glass cutting tools will be provided and may be purchased as desired. Bring a 3” x 6” quilter’s plexi-glass ruler, one bottle of clear school glue, thin tip sharpie, scissors, safety eyewear and magnification. Bring sack lunch and water.

Introduction to Fine Silver Metal Clay*

At the Skirball Cultural Center

Ancient jewelry making techniques converge with new millennium technology through Precious Metal Clay. Fine silver particles suspended in an organic binder and water form a wonderfully malleable material that can be formed like earthen clay. When fired in a kiln it fuses or “sinters” together to become a .999, pure silver object. In this intensive workshop, students begin to master PMC as they learn how to texture, set gems, roll coils, form custom bails, re-hydrate dry material, and safely use a butane torch to fire creations made at home. Students create an original pair of earring drops and pendant. Course covers various finishing methods including wire brushing, burnishing, and patinas.

Prerequisite: None

First class materials: $65 materials fee payable to instructor at first class meeting includes one package of Precious Metal Clay and a faceted lab grown gemstone. Syringe, paste, and paper clay are also available for use and a loaner tool kit is provided. Additional supplies may be purchased as desired. Bring sack lunch, water, and eye magnification.

Fine Silver Metal Clay Techniques*

Enrich your jewelry design experience with Precious Metal Clay. This wonderfully malleable material, consisting of fine silver particles suspended in an organic binder and water, can be formed like earthen clay. When fired in a kiln it fuses or “sinters” together to become a .999 pure silver object. In this course students explore PMC techniques while making bead caps and cones, setting lab-grown gemstones and dichroic glass cabachons, creating hollow beads, and moldmaking. Due to time restraints, pieces completed in class will be fired at the instructor’s studio and returned for finishing by the student.

Prerequisite: None (Recommended: XJWL3018 Introduction to Precious Metal Clay)

First class materials: $200 materials fee payable to instructor in two parts, $100 at 1st class meeting and $100 at 4th class meeting; includes PMC™ and faceted lab grown gemstones, dichroic glass, ceramic shard, bisque bead, and other materials necessary for completing all projects. Syringe, paste, and paper are also available for use and a loaner kit is provided. Additional clay products may be purchased as desired. Bring snack, water, and eye magnification.

Jewelry Design: Bead Stringing, Knotting, and Wire Wrapping*

During this eight-week course, students design and create their own jewelry. Basic bead stringing and wire wrapping methods are demonstrated step by step. Course covers stringing, knotting, wire wrapping, French wire, and finishing techniques. Projects include a variety of styles of necklaces, bracelets and earrings – from single and multi-strand beaded necklaces with different endings to wire wrapped bead and chain necklaces, bracelets, and earrings.

Prerequisite: None

First class materials: One size 3 nylon or silk bead cord with needle attachment; 2 small clam shells; 1 small clasp; 16mm to 8mm solid (not cut) jump ring; 2 earring wires; 2 head pins; Beads: 1 strand of 3mm to 5mm beads of your choice; chain nose pliers; needle nose pliers; round nose pliers; thread cutter; wire cutter; tube of cement; knotting tweezers; measuring tape; masking tape; pin vise; bead board (optional). Estimated cost of supplies is approximately $100 (cost of beads and metal varies depending on student’s selection).

CORE COURSES:

Introduction to Photography

Black and white photography is a critical building block for any photographer or artist who would like to develop an understanding of and use color and digital photography. This hands-on photography course combines technical information with conceptual skills. Topics include using a 35mm camera, black and white film choices, camera formats, lenses, ASA, aperture, light meters, depth of field, and shutter speeds. Also covers how to compose an image and shoot in natural and ambient light sources to create great everyday photographs. Students develop a vocabulary for “reading” and evaluating images. Course includes assignments, demonstrations, an in class shoot, individual and group critiques, lab/darkroom sessions, midterm, and final presentations of photographs.

Prerequisite: None

First class materials: Students must have a 35mm camera that can be used manually or a camera that is both manual and automatic.
Introduction to the Black & White Darkroom

Instruction covers basic and white darkroom equipment and processes. Students develop 35mm film and make black and white prints using various papers. Among the techniques demonstrated are cropping, burning and dodging, contrast control, print format, and spotting. Discussions cover film choices, darkroom safety, archival processes, and the creative aspects of black/white darkroom controls leading to enhanced personal expression. Although some basic 35mm camera experience is recommended, both beginning and advanced students who wish to learn basic darkroom skills may enroll.

Prerequisite: XPHO2010 Introduction to Photography

PHOTOGRAPHY 76
**Prerequisite:** XPHO2010 Introduction to Photography or equivalent knowledge. Students must have working knowledge of traditional/digital manual camera functions.

**First class materials:** Digital cameras required for all class instruction. Film cameras may be used with the approval of instructor.

### Introduction to Color Photography

In this course students investigate color aesthetics and techniques, learning how to make photographs that have strong color, composition, and impact. Topics include camera exposure, using color negative and transparency films, lighting situations, lab quality control, contact sheets, and color printing. Demonstrations and discussion include darkroom techniques such as color correcting, print exposure, print manipulation, and the use of instant and alternative color materials. One-on-one critiques encourage students to establish a foundation for the expression of a personal vision.

**Prerequisite:** Basic camera and darkroom skills.

### Digital Photography

**Blended Course**

This course explores digital photography techniques for fine art, portrait, editorial, and documentary genres of image-making. Students use digital cameras in manual mode and a variety of program modes, while focusing on composition, exposure, and working with available and artificial light. Course covers use of Adobe Photoshop Lightroom image management software to edit and organize images, as well as planning workflows to help the photographer successfully satisfy project requirements portraying subject, space, and idea. This course is presented in a ten-week blended format including seven face-to-face meetings and three online meetings. Students work with their own DSLR camera or mirrorless digital camera. One face-to-face meeting is a photo shoot field trip. All other face-to-face class meetings are held in the Otis computer lab. Students enrolled in the course can access the computers and software in these facilities outside of class meetings. The course’s online modules can be accessed from any computer with an Internet connection.

**Prerequisite:** Introduction to Photography or equivalent experience.

**First class materials:** Digital SLR camera or digital mirrorless camera with capability to function in fully manual settings, save images in RAW file format, and accept interchangeable lenses.

### Photography: Portfolio and Professional Practice

In this course, students explore professional practices while generating a photographic portfolio. A strong portfolio is essential for students planning to pursue a career in photography. Course covers creating a cohesive body of work, completing a professional portfolio, developing a resume and artist statement, creating a press packet, and documenting artwork. Focuses on learning to write and speak clearly about your work and applying to artist opportunities online and in person.

**Prerequisite:** Introduction to Photography or equivalent experience.
**Street Photography**

The 2011 exhibition Art In The Streets at The Geffen Contemporary in downtown Los Angeles drew record crowds and confirmed the influence of the urban environment on the way we look and see. Photography has played a vital role in the development of this influence. The tradition of street photography emerged early in the twentieth century with modernist masters Henri Cartier-Bresson and Alfred Stieglitz, and expanded with contributions by Weegee, Robert Frank, and Lee Friedlander, among others. Join Otis Chair Emeritis, Ave Pildas on an exploration of the streets and sites of Southern California. Capture the moment. Discover what, when, where and how to shoot photographs on the street. Learn the etiquette of street photography, the do’s and don’ts of shooting, and your rights as a photographer. Acquaint yourself with equipment and techniques. Course focuses on subject matter, composition, and developing your own personal style. We shoot as a group in historic locations like downtown Los Angeles, Venice Beach and Hollywood Boulevard. In the classroom, we will look at examples of successful street photography and critique the photographs that result from our shoots.

**Urban Noir: Night Photography at the Santa Monica Pier**

Join internationally renowned night photographer, Helen K. Garber, as she guides students through the specialized techniques of night photography at one of the artist’s favorite Los Angeles Landmarks – the world famous Santa Monica Pier. (This is the first photography class, taking place on the pier that is sanctioned by the Santa Monica Pier Restoration Corporation.) The course begins at Otis for an introductory meeting to prepare students for the shoot. The second session meets late in the day, in the private quarters of the Pier Restoration Corporation, the old apartments above the landmark Carousel, a special treat in itself. After a preliminary discussion and a tour with your instructor to point out the best vantage points, students watch and evaluate the available light, to be ready to shoot by sunset. Shooting continues through dusk and nightfall. Following the shooting session, the students may opt to stay, relax and share a meal with Ms. Garber at one of the restaurants on the pier. The final meeting takes place at Otis for a critique of the students’ photographs.

**Prerequisite:** Students are expected to understand how to use their camera, including ISO, speed, and aperture settings.

**First class materials:** Note-taking materials. Film cameras are acceptable for the shoot, with t-max 400 or 3200 film, but digital cameras are recommended. A mini Tripod or tripod is mandatory for shooting at the pier.

Portfolio Development and College Preparation

Building a strong portfolio is essential for admission to Otis and other colleges of art and design. These specialized courses focus on skill-building, creative self-expression, in-depth exploration of art materials and techniques. All courses are taught by practicing professional artists, many of whom teach in Otis' undergraduate programs. Geared towards portfolio development to support application to Otis and other colleges of art and design.

All courses take place at Otis College of Art and Design's Elaine & Bram Goldsmith Campus, unless otherwise noted.

Portfolio Preparation: Observational Drawing*

In this course, students draw from observation and develop perceptual and pictorial skills. Instruction covers drawing techniques and fundamental design principles. Students develop their creative and aesthetic sensibilities, establishing a foundation for all visual art pursuits. Assignments are geared towards portfolio requirements. Advice and direction is available for those students preparing a portfolio for art college admissions. Includes a guest lecture by a counselor from Otis' Admissions Office who offers information on college requirements.

Prerequisite: None

First class materials: 18" x 24" drawing board, 18" x 24" drawing pad (no newsprint, no bond paper), HB, 2B, and 4B drawing pencils, 2B and 4B charcoal pencils, 1 kneaded eraser, 1 Mars white eraser.

This course further develops skills of observation, spatial analysis, and compositional organization. Traditional and experimental drawing activities allow the student to develop their problem solving skills by exploring conceptual challenges in a variety of media. A portion of the class meetings are devoted to figure drawing from a live nude model. Proportion and structure as well as gesture and expressive qualities of the figure are introduced. Advice and direction is available for those students preparing a portfolio for art college admissions. Includes a guest lecture by a counselor from Otis' Admissions Office who offers information on college requirements.

Prerequisite: Basic Drawing or equivalent experience

First class materials: 18" x 24" drawing board, 18" x 24" white bond paper pad, 18" x 24" newsprint pad, 2 charcoal pencils soft or ex-soft, 1 kneaded eraser, 1 white eraser, 1 X-acto knife, 24 color box of oil pastels (no soft or chalk pastels), 2 sheets of Canson Mi-Teintes brand felt grey or steel grey colored paper.

*Courses not eligible for discount
Portfolio Preparation: Life Drawing and Painting*

This course focuses on drawing and painting the human figure. Emphasis is placed on understanding and conceptualizing the body as form in space, while considering the figure as an element of composition. Using traditional drawing materials, volumetric drawing serves as the foundation for further study. Students explore painting techniques and concepts through the use of acrylic paint.

**Prerequisite:** Basic Drawing or equivalent experience

**First class materials:** 18” x 24” smooth newsprint and/or bond paper; 18” x 24” drawing board. Assorted pencils: soft charcoal, “carbon”, dark pastel, dark colored pencils (Prismacolor or Polychromos). “Soft” compressed charcoal sticks; Nupastel stick (earth tone). Assorted blending “stumps” and tortillons; kneaded rubber eraser; razor blades or retractable razor knife; 1 piece #100 grit sandpaper; chamois. Materials list for painting supplies will be distributed at first meeting.

**Leonardo’s Apprentice:**
**Ages 5-8***

When Leonardo da Vinci was young, he apprenticed with an older more experienced artist to learn the art trade. This early art experience introduced Leonardo to various materials and techniques: grinding and mixing pigments, learning geometry, mixing of colors, preparing panels, working of clay, and the actual act of painting itself. Using the old and modern masters as inspiration, students learn the fundamental techniques and principles of art. In this course young apprentices are introduced to basic art concepts including use of color, line, shape, texture, and composition, while learning a range of technical methods used by the masters themselves. Students learn to use various drawing, painting, and sculpture materials. The course takes place in a nurturing atmosphere, which stresses experimentation and exploration. Course is designed to heighten sensory awareness and build self-confidence in fundamental art making skills.

Painting and Mixed Media: Ages 9-12*

Learn to paint while exploring the materials and
techniques that artists have used throughout the
20th and 21st centuries. Using canvas and acrylic
paint, as well as ink and watercolor, this class
follows the development of painting throughout
history. Students experiment with multi-layered
materials and painting techniques used by master
contemporary artists, while learning about such
generes as hard edge abstraction, pop art, and as-
semblage. Students complete up to five paintings
and mix media artworks.

Painting and Visual Storytelling: Ages 13-15*

Learn to paint with acrylics while exploring
Narrative Painting, an approach to art that tells a
visual story. Visual narrative is usually told in a
series of images, but many artists such as Frida
Kahlo, Gary Baseman, and Kara Walker have mas-
tered the ability to tell a story through a single
complex work of art or 2-dimensional installation.
Using these leading artists and others as refer-
ence, choose a favorite story, comic, or original
poem for inspiration to create your own paintings.
Learn painting techniques such as glazing, impas-
to, and heavy texture, as well as the elements
and principles of art including composition, color,
and form. Class discussion will focus on exam-
ple in art history that demonstrate narrative art
including biography, mystery, and adventure.

Drawing on the Right Side of
the Brain, a Children's Course:
Ages 9-12*

This beginning course in drawing is designed
especially for children, ages 9-12. It is based upon
the method developed by Dr. Betty Edwards and
described in her book, Drawing on the Right Side
of the Brain. In this course children learn the
perceptual skills necessary for realistic drawing,
which include the perception of edge, space,
angles, proportion, light, and shadow. Course
combines brief lectures and studio exercises,
which guide the students through the systematic
learning process. In eight weeks, students ad-
ance from symbolic images to actually drawing
what they see.

Self-Discovery through Writing
Online Course

Many writers attest to the emotional, spiritual, and even physical benefits of writing. In this course, students examine how written expression can help navigate the human experience. Course explores a variety of visual and written tools for self-reflection, exploration, and expression. Students practice interactive writing therapy and expressive writing to address universal life experiences, participate in self-reflective writing experiences, and participate in classroom discussions designed to stimulate a closer look at the potential of healing writing and to deepen one’s own writing process. Through discussion, group activities, written assignments, journals, and directed homework exercises, students practice utilizing the written word to explore and express who they are. **Enrollment Deadline: Mon., 2/1/2016**

Autobiography, Memoir, or Fiction
At the Skirball Cultural Center

From personal life experiences, students uncover material for an autobiographical memoir or piece of fiction. Like contemporary art, which breaks down the boundaries between art and life, this writing course allows students to move between the worlds of fiction and non-fiction. From readings and workshop discussions, students generate ideas and learn the craft of writing. Course explores the letter, the personal essay, and philosophy; mining raw material, life experiences, and memory; the art of short fiction. Also covers transforming raw material; writing about family and friends; truth and integrity; inventing and re-inventing from memory; maintaining perspective; point of view; hybrid forms; rendering characters: creating dossiers; listening to dialogue; voice: yours...strengthened; description; sensory detail and other strategies; research, information, and publishing questions. This dynamic course focuses on finding each individual's story and voice. Finished works may be a personal essay, a short story, a novella, or chapters of a memoir or novel.

LIGHTING STUDIO
Room G105

In the 60’ x 40’ Lighting Studio students can find everything they need for fashion shoots, portraiture, and still life. Equipment includes Norman strobes, tungsten lights, soft boxes, umbrellas, diffusers, reflectors, and gels. A seamless shooting cove allows 90 degrees of infinite background. A 12’ x 18’ permanent green screen with fixed kinoflo lighting and green stage is available.
LABORATORY PRESS/LETTERPRESS STUDIO
Room B04
In the Laboratory Press students investigate the origins of typography and the notion of the book as a visual communications medium. Conceived as a laboratory for aesthetic exploration and practical production, Otis Laboratory Press is an integral part of the graphic design and illustration curriculum, linking time-honored tools to today's digital media. From metal type to digital plates, students experience the traditional disciplines of typography, letterpress printing, and bookbinding while learning to integrate type and image, structure and content, process and product. Student work produced in the Laboratory Press has been widely exhibited in many major book arts collections, including the UCLA Special Collections Library. The press boasts a large collection of wood and metal type and four Vandercook flatbed cylinder presses.
Visit the Otis Laboratory Press:

METAL SHOP
Room P01
In the Metal Shop students cut, weld, form, shape, grind, polish, and finish ferrous and nonferrous metals in sheet, tube, and plate. The shop is outfitted with 5 MIG welders, and 1 TIG welder, as well as plasma cutting equipment. The Metal Shop is also equipped with an automated pipe bender and tube roller. The Metal Shop is only available to students who have registered for a welding/metal class and paid the lab fee.

PHOTOGRAPHY LAB
Equipment
In the photography lab students learn to develop and process their own film, and make their own black & white silver gelatin, or RA-4 Type C prints in a traditional wet darkroom environment. The photography crib offers a wide variety of film and digital cameras, lighting equipment, and darkroom tools for student checkout.
Lab hours are posted in the darkroom area each semester. Lab hours provide the student with time to work independently. Lab hours for Continuing Education students are from 8:00am-10:00pm, Monday through Thursday, Friday from 8:00am-7:00pm, and Saturday from 9:00am-5:00pm. Sunday the Lab is closed. Classroom activity in the darkroom has priority over lab use by individual students. Lab fees cover the use of equipment and basic chemistry. The Lab is only available to students who have registered for a photography course and paid the lab fee.

FREDERICK MONHOFF PRINTING LAB
Room B07
The Frederick Monhoff Printing Lab offers a complete silk screening facility. Up to ten stations are provided including a darkroom for all lightfast conditions complete with a medium size exposure unit and pressurized wash out booth. The print lab facility also includes two large presses for a variety of print making techniques.

VIDEO LAB
Room B06A
In the Video Lab, students can learn the language of video. A variety of capturing equipment is available for student use. This includes HD video cameras, camera stabilizers and support, and audio recording equipment. Included in this facility is a computer lab with 20 workstations operating on the latest Apple supported video and sound editing software.

WOOD SHOP
Room A701
The Wood Shop provides facilities for the milling, shaping, joining, and finishing of fine hardwoods, fiber-board, plywood, plastics, foam, and bent laminations. A large selection of hand and power tools is available for student use in the shop facilities. The shop is outfitted with a 7hp automated sliding table saw, two 3hp cabinet style table saws fitted with the latest Saw Stop technology, a 20-inch industrial planer, and a 10-inch industrial jointer. The Wood Shop is only available to students who have registered for a wood class.
CERTIFICATE PROGRAMS
Otis Continuing Education certificate programs are designed for individuals developing a new career, making career changes, or seeking to enhance existing art or design skills. Programs provide intensive, practical training in a variety of art and design disciplines, combining the study of aesthetic principles with the acquisition of practical skills. Courses are designed to help students develop professional-quality portfolios in their chosen design fields.

Eligibility
Open to all adults, 18 and over, who fulfill prerequisites.

Certificate Credit for Completed Continuing Education Courses
Students may apply credit from prior Continuing Education courses under the following conditions:
1) Otis Continuing Education courses were completed no more than three years prior to enrollment in the Certificate Program.
2) Courses were taken at Credit or Certificate status (non-credit is unacceptable).
3) Grades were "C" or better.
4) Courses were relevant to a specific curriculum requirement in the program.

Courses taken outside the Otis Continuing Education program are not accepted for credit toward certificate core courses.

Professional Experience
Appropriate professional experience in the discipline may be substituted for a core course or courses; documentation supporting this experience or a portfolio of work should be submitted to the Continuing Education office prior to beginning the certificate program. The student must fulfill the required number of units to complete a certificate and select courses from the remaining core classes and electives to replace the substituted course.

Enrollment Status
Two choices are available:

Certificate Credit (XT): non-transferable credit. Graded on a letter grade system. ("C" grade or better is required for certificate credit.) A permanent record is kept in the Office of Registration and Records.

College Credit (XC): transferable unit credit. Graded on a letter grade system. ("C" grade or better is required for certificate credit.) Credit students are required to complete additional classwork in order to successfully complete a course.

Counseling
Call 310-665-6850, Monday-Friday, 9:00am-5:00pm
Please call in advance for an appointment.
Talk with an Otis Continuing Education representative to discuss courses.

Certificate Program Application Fee
Students entering Otis Continuing Education Certificate Programs are required to pay a one-time $175 application fee.
Students should pay the Certificate Application Fee prior to enrolling in their third course. Application fees are non-refundable and non-transferable.

Only those who have enrolled in a Certificate Program are eligible to receive a final certificate.

Counseling/Portfolio Reviews
This application fee enables students to meet with a counselor two times during their course of study:
> once they have completed an application to a Certificate Program and
> the semester prior to completing their certificate

Students should call the Continuing Education office to set up an appointment.

For further information, please call 310-665-6850.

Completion
All required courses and electives must have been taken at Certificate (XT) status or Credit (XC) status and have received a grade of "C" or better.

The Certificate Program must be completed within four years of submitting your application and fee.

Upon completion of all courses, the student must petition the Continuing Education Office in writing to receive their certificate; please include the certificate program name, your Student Identification number, and mailing address. The Continuing Education office verifies that all requirements have been met and then issues the certificate. Certificates are issued approximately twice per year, in June and December. (Deadline for December 15 is June 15; Deadline for June 15 is December 15.)

OTIS DOES NOT DISCRIMINATE
Otis College of Art and Design, in accordance with applicable Federal and State law and College policy, does not discriminate on the basis of race, color, national origin, religion, sex, gender identity, pregnancy/childbirth and medical conditions related thereto, disability, medical condition (cancer related or genetic characteristics), ancestry, marital status, age, sexual orientation, citizenship, veteran status, or other characteristics or classifications protected by the law. This nondiscrimination policy covers admission, access, and treatment in College programs and activities. The following person has been designated to handle inquiries regarding the non-discrimination policies: Amy Gantman, Dean of Continuing Education and Pre-College Programs, Otis College of Art and Design, 9045 Lincoln Boulevard, Los Angeles, CA 90045, 310-665-6850

PREREQUISITE COURSES
Prerequisites must be satisfied through previous course work, portfolio, or experience. Portfolios are requested for admission to some courses.
Portfolio reviews are available by appointment. Please call the Continuing Education Office at 310-665-6850 for further information.
Students preparing to enter a new career without previous art or design experience should complete the recommended prerequisite courses before (or concurrent with) enrollment in a particular sequence. Demonstration of equivalent experience is accepted as meeting prerequisite and beginning required courses.

ENROLLMENT STATUS
Non-Credit (XN)
No grades are given in the course, and no permanent academic records are kept by the College.

Certificate Credit (XT)
Certificate students are graded on a letter grade system (A-F), and a permanent record is kept on file in the Office of Registration and Records. Certificate grades are not transferable to other institutions. No college credit is given. Any student may enroll at Certificate Status, whether or not he/she is pursuing a certificate program.

College Credit (XC)
Credit students receive a letter grade (A-F), and a permanent record (transcript) is kept on file in the Office of Registration and Records. Official transcript fee is $5.00 per transcript.
Credit students are required to complete additional classwork in order to successfully complete a course. In accordance with the WASC and NASAD accreditation standards, courses meeting for 30-36 hours, receive 1.0 unit of course credit. As an accredited institution, credits are offered in semester units; most studio courses are one undergraduate unit. In the Continuing Education Division, one semester hour of studio credit represents a minimum of three hours of work each week, on the average, for a semester of 10-12 weeks. Summer session may vary in course hours and duration of classes.
Credit and certificate students are required to adhere to academic regulations as outlined in the Student Handbook concerning class attendance and completion of work. Any student may enroll in Credit Status.

FACULTY
The faculty is drawn from the best of the city's working professionals – individuals who combine the theoretical approach of the classroom with the know-how that marks a successful career.

ACCREDITATION
Otis College of Art and Design is fully accredited by the Western Association of Schools and Colleges (WASC) and the National Association of Schools of Art and Design (NASAD).

AFFILIATIONS
Otis College of Art and Design is a member of the University Professional and Continuing Education Association (UPCEA) and the Council for the Advancement and Support of Education (CASE).
FINANCIAL AID OFFICE
Private student loans are offered by Wells Fargo. These private student loans are only available to students who are enrolled in a certificate program and will only be certified to cover the cost of tuition and fees for each semester at a time. Please contact the Financial Aid office at 310-665-6882 if you have any questions regarding the private loan process.

VETERANS AFFAIRS OFFICE
800-827-1000
Credit classes may be approved under the Veterans Educational Benefits Program. Veterans, their dependents, and others eligible for veterans’ education programs should determine their benefits and obtain authorization from the Veterans Administration before enrolling in classes.

PHYSICALLY-CHALLENGED ACCESS
310-665-6850
Otis College of Art and Design facilities are accessible to, and special arrangements are made for, physically challenged students. Any student needing these services should contact the Continuing Education Office at 310-665-6850.

STUDENTS WITH DISABILITIES SERVICES
If you are a student with a documented disability (physical, learning, or psychological) you should contact Students with Disabilities Services (located in the Student Resources Center, 310.846.2554) before you need any accommodations. Retroactive accommodations are not provided, so please be sure to make your request early in the semester. All discussions will remain confidential. For additional information please visit http://my.otis.edu/life_otis/student_affairs/student_disabilities_services.html

PRIVACY ACT
The Family Education Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1) The right to inspect and review the Student's education records within 45 days of the date the College receives a request for access.

Students should submit to the Registrar, Dean, Chair or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the Student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the Student of the correct official to whom the request should be addressed.

2) The right to request the amendment of the Student's education records that the Student believes are inaccurate or misleading.

Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading.

If the College decides not to amend the record as requested by the Student, the College will notify the Student of the decision and advise the Student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the Student when notified of the right to a hearing.

3) The right to consent to disclosures of personally identifiable information contained in the Student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to College officials with legitimate educational interests. A College official is a person employed by the College in an administrative, supervisory, academic, or research, or support staff position (including law enforcement unit personnel and health staff), a person serving on the Board of Trustees, or a Student serving on an official committee, or assisting another school official in performing his or her tasks.

A College official has legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The College may disclose certain information, known as directory information, at its discretion without consent. Students may refuse to let the College release any or all of this information. If you do not want this information released, you must send written notice annually to the Registration Office. Forms are available from that office. The College has established the following Students information as public or directory information: Student name, address, telephone number, major field of study, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended.
Upon request, the College discloses education records without consent to officials of another school, in which a Student intends to enroll.

4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

2) The add/drop card must be approved by both the Department Chair and the Dean of Continuing Education.

DISCOUNTS

Only one type of discount (alumni or senior citizen) may be applied per student, per course. Please note: Early Bird registration discount may be combined with any one of the tuition discounts listed below. All discounts must be done at time of registration.

Early Bird Registration Discount

Early Registration Discount ends at the end of the Continuing Education Open House. To receive a discount at Open House students must enroll in person or by fax. No phone enrollments are accepted the day of the Open House. Please NO CASH. Visa, MC and check only.

Deduct $50 from each course that meets for a minimum of 30 contact hours with tuition of $395 or more. Courses not eligible for Early Bird Discount are noted with an * next to their title in the catalog.

Teacher Discounts

Otis College of Art and Design is committed to supporting the continuing education needs of our local school districts, namely Los Angeles Unified and Culver City School Districts. Full time Kindergarten through 12th grade teachers may be eligible to waive tuition on any course meeting for at least 30 contact hours.

Alternatively, qualified students may elect to enroll in a course for a reduced tuition (approximately equal to 50% discount) to be guaranteed a space in the class.

Please note that teachers are responsible for registration, insurance, lab, and materials fees.

To apply for tuition remission, teachers MUST provide the following:

1) A Letter of Confirmation with verification of current FULL-TIME employment status. All submissions must be on original school or district letterhead and MUST be signed by Supervising School or district Administrator.

2) A completed current registration form.
3) Include payment information totaling registration, insurance, and lab fees.

Once documentation has been provided to the Continuing Education Office teachers will be placed on a waitlist. Please call the Continuing Education office at 310.665.6850 to verify waitlist status. This full tuition discount is only offered on a space available basis.

Due to funding regulations, no substitute documentation will be accepted.

Discounts are valid for certificate level only. Courses not eligible for this discount are marked with an * in the catalog.

**The Arts in Education Series**

Teacher tuition for the Arts in Education Series, one-day workshops are free with a letter of confirmation on original school or district letterhead verifying teacher’s current full-time employment status signed by Supervising School or District Administrator; Participant is responsible for $14 Student Insurance Fee.

For further information, please call 310-665-6850.

Tuition remission for teachers is supported by Sony Pictures Entertainment.

**KCRW Members**

Otis College of Art and Design is pleased to offer KCRW members a $50 tuition discount on selected Continuing Education courses (excluding registration, insurance, and lab/material fees). KCRW’s Fringe Benefits card must be shown as proof of membership at time of registration. Please fax a copy of your card with all phone or faxed registration forms. Courses not eligible for this discount are marked with an * in the catalog.

**Otis Alumni**

Otis College of Art and Design is interested in supporting the continued creative and professional growth of its alumni. Those individuals who have graduated from Otis College of Art and Design's BFA or MFA programs, are eligible for a $50 discount on tuition for Continuing Education courses (excluding registration, insurance, and lab/material fees). The Office of Registration and Records will verify eligibility. Courses not eligible for this discount are marked with an * in the catalog.

**Senior Citizens**

Seniors (60 years and older) receive $50 off the tuition of each course at time of registration (registration, insurance, and lab/materials fees cannot be discounted). Please provide proof of age when registering. Tuition and fees are payable in full at the time of registration. Courses not eligible for this discount are marked with an * in the catalog.

**Skirball Cultural Center Members**

Skirball members are eligible for a 10% discount on most Otis courses taking place at the Skirball Cultural Center. Members must notify registration staff of their discount at time of registration. Please fax a copy of your card with all phone or faxed registration forms.

**FEES**

**Registration Fee**

Each semester a $25.00 (non-refundable) fee is charged to each student, for tuition totaling $101 or more. A registration fee is not charged for Children’s courses (ages 5-12).

**Insurance Fee**

$14.00 (non-refundable) per student per semester. This fee applies to all students enrolled in Continuing Education courses at Otis and cannot be waived. This insurance fee covers accidents and injuries occurring while on campus.

**Lab Fees**

Lab fees are listed with each course where applicable. Students enrolled in these courses must pay associated lab fees at time of registration. Lab fees are non-refundable after the first class meeting.

**Materials Fees**

Material fees are listed with each course where applicable, and are usually paid directly to the instructor. Material fees are non-refundable.

**Late Fees**

An additional $30.00 is charged if a student registers after the first business day following the first class meeting. All students must register in a course prior to the start of the second class meeting.

**Parking**

**Westchester Campus Only**

Parking is included in your tuition and available in the Parking Pavilion located adjacent to the Otis College of Art and Design Campus located at: 9045 Lincoln Boulevard, Westchester. Students may request a parking permit in the Office of Registration and Records 310-665-6950, registration@otis.edu. Parking on the streets in residential neighborhoods bordering the college campus is prohibited.

**California Market Center**

Students attending fashion courses at the California Market Center may park in an adjacent structure for an additional fee. Garage parking is paid on a daily basis.

California Market Center Main Garage hours are: 8:30am-10:00pm, Monday-Friday. Saturday hours are: 7:00am-6:00pm (For access to California
Market Center on Saturdays, from street level, use 9th Street entrance.)

**Skirball Cultural Center**
Parking at the Skirball Cultural Center is free and located on-site at 2701 N. Sepulveda Blvd., Los Angeles, CA 90049.

**Returned Check Fee**
1) If for any reason a check does not clear for payment, a penalty of $50.00 is charged to the student’s account. The College cannot assume that the student has withdrawn from classes because the check has not cleared or has been stopped; payment and penalty remain due.

2) If sufficient payment is not made within 48 hours of notification, students with bounced checks or unacceptable credit cards may no longer attend classes.

3) Students who bounce checks lose their check-writing privileges for twelve months after their penalty charge is paid.

4) It is Otis College of Art and Design’s policy that all classes be prepaid (including Continuing Education).

If for any reason a students’ account should accrue a balance due (payment due, returned check, and/or dishonored credit card, etc), and that balance remains unpaid for more than fifteen (15) days, that account will be assigned to a Collection Agency. All accounts assigned to a Collection Agency will be charged collection costs, including but not limited to collection agency fees, as well as legal fees, and/or court costs. This information will be disclosed to credit reporting organizations.
HOW TO REGISTER

Registration applications must be accompanied by full payment of all tuition and fees and are processed in the order received. Early enrollment is advised.

Tuition and fees are listed with each course description. You must be registered in a course before the start of the second class session. Students not enrolled by the start of the second class session may not attend class.

Registration is completed ONLY through the Office of Registration and Records. Take care of all registration business (enroll, request a parking permit, add, drop, transfer or change credit status) at the Office of Registration and Records, or by calling 310.665.6950.

DISCLAIMER

SCHEDULE/COURSE CHANGES AND CANCELLATIONS
310-665-6950
registration@otis.edu

Otis reserves the right to cancel, reschedule or combine classes; to change instructors; to increase or decrease class size, and to alter curricula. It also reserves the right to deny any student permission to enter or continue a course of study.

Courses may cancel on or before the first scheduled class meeting if enrollment is insufficient. If a class is canceled or rescheduled, you may request a transfer to another class; otherwise, you will receive a full refund of tuition and fees for the class that was canceled. Please allow four to six weeks for processing. Please call the Registration Office to initiate your refund.

CLASSROOM ASSIGNMENTS

Prior to going to their first class, students should refer to the classroom location lists posted at the building entrance or outside the Continuing Education office, located on the 2nd floor, Room 208.

TRANSFERS/STATUS CHANGES

To transfer from one course or section to another, or from non-credit to certificate or credit-status, please contact the Office of Registration and Records at 310-665-6950. Any changes must be completed by the end of the second class meeting. Transfers from credit to non-credit status are subject to the deadlines outlined in the Academic Calendar and Refund Policy.

GRADING POLICY

Non-Credit Status
No grades are assigned for Non-Credit classes. No records are kept, other than the registration schedule.

Certificate and Credit Status

Grades assigned upon completion or termination of a course taken for credit are:

<table>
<thead>
<tr>
<th>Grade</th>

</tbody>
</table>

UW

Unofficial Withdrawal: Indicates that a student has “unofficially” withdrawn. The “UW” grade is equivalent to an “F” in calculating the grade point average.

W

Withdrawal: Indicates official withdrawal (done through the Office of Registration and Records). The “W” grade becomes part of the student’s permanent record but is not included in the grade point average. Students must withdraw by deadline noted on Academic Calendar.

I

Incomplete: Given only in extreme circumstances with the instructor’s and the Dean of Continuing Education’s approval. Work must be completed within 4 weeks from the end of the semester in which the grade of Incomplete was granted; otherwise, a final grade of “UW” will result.

(Certificate status is not eligible for college credit and is non-transferable.)

Please contact the Office of Registration and Records for further information at 310-665-6950, or email registration@otis.edu

APPEAL OF GRADE

Grades are subject to revision by the instructor with the approval of the Dean of Continuing Education. Grade changes may be made only during the semester immediately following the semester in which the initial grade was given. After one semester has elapsed, all grades recorded in the Office of Registration and Records become a permanent part of the student’s academic record, and no changes are allowed.
ATTENDANCE
The Otis College of Art and Design attendance policy is as follows: Instructors keep attendance records. All students, no matter what their enrollment status, are expected to attend class regularly and on time. Missing 20% of class meetings results in a failing grade. Three tardies are equal to one absence. Each student has an obligation to contribute to the academic performance of all through full participation in the work of each class. If special difficulties arise, the student should first consult his/her instructor. Contact the Continuing Education Office if there is no resolution.

REFUND POLICY
Office of Registration and Records
310-665-6950
registration@otis.edu

Full refunds of tuition and fees are granted if:
1) A course is canceled by the Continuing Education Division.
2) Course day or time is changed and the individual student cannot attend.
3) A course is filled before receipt of your registration form. Refunds are not given to students who notify the College of their withdrawal after the second class meeting.

Withdrawals and drops can be done by phone. After you have registered for a course, and you do not attend the first or second meeting, it is your responsibility to notify the Registration Office at 310.665.6950 to request a partial refund.

If a student’s withdrawal or drop causes the course to be subsequently canceled, the Withdrawal Refund Policy and not the Cancellation Refund Policy applies to that student. Registration and Student Insurance Fees are non-refundable. Tuition refunds are granted for official drop and withdrawal procedures based on the following:

No Refund
Registration, insurance, and lab fees are not refundable in the case of withdrawal or drop. Refunds are not available to students who do not attend class and who do not officially drop or withdraw from their course. Refer to Drop and Withdrawal sections, below. Absolutely no refunds are given after the start of the second class meeting.

Full Tuition Refund (fees non-refundable)
100% refund of tuition and lab fees are given to students who notify the Registrar of their drop or withdrawal prior to the first class session.

Partial Tuition Refunds (lab fees non-refundable)
Partial refunds are only given to students who drop or withdraw before the start of the second class meeting and are pro-rated as follows:
Classes that are scheduled to meet 11 or more sessions have a 10% tuition charge when dropped after the first class.
Classes that are scheduled to meet 6-10 sessions have a 15% tuition charge when dropped after the first class.
Classes that are scheduled to meet 3-5 sessions have a 30% tuition charge when dropped after the first class.

No refunds are issued to students who drop after the first class meeting for classes that are held for one or two sessions. Please refer to the catalog course listing sections for meeting times and number of class sessions.

Appeals
To appeal for a refund, which falls outside the policy outlined above, students must submit a written appeal to the Refund Committee. The appeal must outline specific reasons for the refund request. Appeals are addressed on a case-by-case basis. You will receive a written response. Refund Committee response time varies due to circumstances. Please mail your appeal to Refund Committee, Continuing Education, Otis College of Art and Design, 9045 Lincoln Blvd., Los Angeles, CA 90045 or email otisce@otis.edu

Refund Processing
Once the information is received by the Office of Registration and Records, tuition refunds require a minimum of four weeks to process.

Payment Problems
A $50.00 service charge will be added to a student’s account for returned checks (see Fees section), including registration payments for canceled or dropped classes.

Students are responsible for any finance charges incurred on their credit card, including registration payments for canceled or dropped classes.

If sufficient payment is not made within 48 hours of notification, students with returned checks or unacceptable credit cards may no longer attend class.
DROP POLICY

Office of Registration and Records
310-665-6950
registration@otis.edu

Students must officially drop a class through the Office of Registration and Records. Students who for any reason find it impossible to complete the course in which they are enrolled should inform the Office of Registration and Records in person or by telephone immediately. Students who drop a course before the start of the second class meeting are eligible for a partial tuition refund based on the refund policy outlined above.

WITHDRAWAL POLICY

Office of Registration and Records
310-665-6950
registration@otis.edu

Students taking courses at certificate and credit level:

After the drop deadline, a student may officially withdraw from a class by contacting the Office of Registration and Records in writing. A grade of “W” is assigned. The grade of “W” has no effect upon the grade point average. Failure to complete a course does not constitute official withdrawal nor does notifying the instructor. Students who do not meet the withdrawal requirements receive a failing grade. Please see Academic Calendar on page 3 for deadline.

ENROLLMENT VERIFICATION

Office of Registration and Records
310-665-6950
registration@otis.edu

Non-Credit Students: No permanent records are kept for non-credit students. Students requiring proof of their enrollment should request a verification in writing from the Office of Registration and Records before the end of the semester in which they are enrolled.

No permanent records are kept for Non-Credit students. Students requiring proof of their enrollment must complete an Enrollment Verification request form before the end of the semester in which they are enrolled. The Enrollment Verification form is available at the Registration Office and at www.otis.edu at the Registration and Records site, under forms. Please note that the Registration Office can only verify enrollment for Non-Credit courses. Since no academic records are kept, successful completion of the course cannot be verified.

TRANSCRIPTS

Office of Registration and Records
310-665-6950
registration@otis.edu

Official and unofficial transcripts are available to students taking classes for credit or certificate. In order for a student to obtain an official or unofficial transcript, they must complete the Transcript Request form available at the Registration Office or at www.otis.edu under Registration and Records. Transcript processing times and fees are listed on the Transcript Request form.
Los Angeles
At the Skirball Cultural Center

The Skirball Cultural Center presents an array of visual, literary, and performing arts; enriching educational opportunities; an interactive family destination, Noah’s Ark at the Skirball™; plus dining and shopping – all in an architecturally stunning setting.

On view through February 21, 2016, the exhibition Manzanar: The Wartime Photographs of Ansel Adams features fifty photographs by Adams (1902–1984) and numerous archival materials that depict the treatment of Japanese Americans at the incarceration camp in Manzanar, California, during World War II. Illuminating a lesser-known dimension of Adams’s work, the exhibition not only captures the artist’s protest of injustice but also his steadfast message of tolerance and understanding.

A corresponding commentary on this period in history, the companion exhibition Citizen 13660: The Art of Miné Okubo displays drawings and paintings chronicling the camp experience by the California-born artist Miné Okubo (1912–2001) as well as other archival material.

From April 7 through October 30, 2016, the Skirball will present Chasing Dreams: Baseball and Becoming American, which weaves together the history of American sports and leisure with stories of immigration and integration into American life. Featuring original artifacts, images, films, and interactive media components, this exhibition explores how baseball tells our national story.

For more information about these and other offerings at the Skirball, visit skirball.org.
