

Community Arts Engagement Minor

As part of the Artists, Community and Teaching (ACT) Program, the Community Arts Engagement minor is for students who wish to work in art/design education and socially engaged art/design practices in venues that do not require a teaching credential, such as K-12 private schools, museum education departments, community art centers, correctional facilities, therapeutic arts programs, public art, design companies that focus on educational materials, and the use of art and design as an agent for positive social change.

Program Learning Outcomes:

Students who complete the Community Arts Engagement Minor will:

- Develop and articulate a meaningful connection between their studio art/design practice and an engagement with their community.
- Demonstrate an understanding of the practices and theories of arts education and community engagement.
- Demonstrate an understanding of career opportunities for community-based and teaching artists/designers.
- Develop, and in some cases implement, innovative and engaging projects for school or community settings.
- Participate in professional practice training through off-campus teaching and community arts internships.
