We are the Originals, Adventurers, and Creators. We don’t sit by and watch. We look at the world and look again. We get inspiration from everywhere. We need to make — and try everything. We work hard and work is our play. We experiment, we fail, and we grow. We use all the tools. The City is our soul — Los Angeles — where dreams meet discipline. We welcome, support, and include. Diversity defines us. Join us.
WE ARE THE ORIGINALS, ADVENTURERS, AND CREATORS.

At Otis College you will be joining a warm, tight-knit community of artists and designers, from your fellow classmates to more than 322 full- and part-time instructors who are professionals in their fields—a diverse group of makers and thinkers who are passionate educators dedicated to your creative growth and success. You will learn your discipline’s professional standards, develop your portfolio, and have the opportunity to learn practical business skills like finance and accounting. You will be supported academically by Academic Advising, receive guidance on resume and interview skills from Career Services, and throughout your Otis College experience you’ll have ample opportunities to connect with visiting artists, lecturers, and industry leaders.
The Worlds According to Charlie Kendall (‘18 BFA Communication Arts)

Charlie Kendall’s path to Otis College was a little circuitous. “Architecture, programming, and biology were the subjects I was studying before art school,” says the Baltimore, Maryland native. “Funnily enough, I make paintings and drawings thinking about all of those things.”

World-building defines a lot of his work, which often features fantastical characters ensconced in dream-like, spectacular surroundings. The illustration that was used for this year’s Viewbook poster, Alternative Transportation, is a prime example of this and was based on Los Angeles, city development, and transportation. “The drawing is busy and packed and allows your eye to travel,” he says. “I like that the viewer can sit with it and pick where they want to go within it—micro or macro.”

“Motion, time, light, and the built environment are themes I look to when developing work.”

Kendall has worked as a graphic designer and illustrator in L.A. since graduating from Otis in 2018, often collaborating with fellow Otis alumni. He also shows his more personal work in gallery group shows. “Motion, time, light, and the built environment are themes I look to when developing work,” he says.

To any prospective student, Kendall advises taking classes in other academic programs at Otis to learn the language of other fields of art and design. “And get your business chops up,” he says. “Art and business work hand in hand.”

You can see more of Kendall’s work at charliekendall.studio and his Instagram, @charliekendall.studio.
WE DON’T SIT BY AND WATCH.

At Otis College, you will be supported in your creative endeavors while gaining real-world experience through internships, class trips, and our signature Creative Action program. With 24-hour access to many studios and other facilities, you’ll likely spend more than a few late nights working alongside your classmates. We’ll make sure you have plenty of help — and fun, too. We offer on-campus housing in our Residence Hall, as well as off-campus housing options. You can take part in campus events like our Halloween Extravaganza, movie screenings, and open-mic nights. You also might join a club, organization, or professional society, represent your classmates through the Students’ Union, or serve as a mentor to a new student.

Through the Creative Action program at Otis College, students work together to solve real-world problems in project-based courses with a multidisciplinary team of classmates.
Zione Hong (’21 BFA Digital Media) on Forging Her Way as a Deaf Animator

For Zione Hong, cartoons weren’t just a means of childhood entertainment. As a deaf child growing up in Glendale, California, they opened up a world of imagination, but also the career path she’s currently pursuing as a recent Otis College graduate.

“At the time, closed captions were not available, but I could understand the story through the characters’ animation and gestures,” she says. “It made me want to make animation.”

“I want to share my animation stories with a global audience—hearing and deaf.”

In many ways, Hong was destined for Otis. Her father is a graphic designer who attended Parsons School of Design and her mother is an interior designer who graduated from Otis. Her father introduced her to Disney films, as well as Japanese anime and manga. “I remember my dad would see how I would respond to the animation. He knew somehow the profound impact it was having on me. I think he knew a long time ago that I would be an animator.”

Hong would love to work for a big studio with global reach so that she could make an impact as a deaf animator in an industry that has a lot of catching up to do, not only in making content that is inclusive, but also in accommodating animators of all abilities. “I want to share my animation stories with a global audience—hearing and deaf,” she says.

You can see more of Hong’s work at zionehong.wixsite.com/portfolio and her Instagram, @zioneh_art.
WE LOOK AT THE WORLD AND LOOK AGAIN.

Otis College was the first independent art and design college founded in Los Angeles, considered one of the most diverse cities in the U.S. In this spirit, we are dedicated to the belief that engaging with other people and experiencing new cultures and ideas enriches your educational experience, from our diverse student body to our faculty members, who also work as animators, fine artists, architects, fashion designers, filmmakers, and toy designers, among many other types of creative professionals.

2. Work created by student Lynn Kwon ('19 BFA Digital Media/Motion Design). See more at lynnkwon.com.

4. Located throughout campus, labs give Otis students access to the latest technology.

5. Internships are an important part of the Otis College experience. Each semester, students are given the opportunity for on-campus work study and paid internships. The Communications and Marketing Department commissioned this motion graphic, by then-student intern Khang Nguyen ('21 BFA Communication Arts), which was shared on Otis social media channels.

6. Student work, such as this digital media project, is shown to prospective employers and the general public at Annual Exhibition, which is held each May.

7. Paul Wee ('87 BFA Communication Arts), came back to campus to speak with students after he won an Emmy for Outstanding Individual Achievement in Animation for “Treehouse of Terror XXIII,” The Simpsons.
A Class with a Global Perspective

Students in the multidisciplinary Environmental Design major (formerly named Architecture/Landscape/Interiors) study in one of its two Areas of Emphasis: the Architecture/Landscape/Interiors or Interiors + Furniture curriculum. “The department’s three fields shape the contexts for all our activities and relations,” says program chair Linda Pollari.

The Donghia Master Class, which Pollari calls “one of the department’s richest experiences,” is an added bonus. During the week-long immersive elective supported by the Angelo Donghia Foundation, a small group of Environmental Design juniors, seniors, and alumnx spend 30-plus hours with a designer from outside of the United States, working on a project sited in the designer’s home country.

Recently, students in Donghia Master Classes explored repurposing a derelict power station in Lagos, Nigeria with Kunlé Adeyemi; rehabilitating three historical buildings on Mumbai’s waterfront into public maritime museums with Geeta Mehta; and creating a responsible urban regeneration plan for Xochimilco in Mexico City with Tatiana Bilbao.

“Each Donghia Master Class gives students a virtual cultural experience as if they’re designing in and for that country. They learn about another country’s culture and issues from the designer-in-residence, who’s engaged in those issues,” Pollari says.

“Each Donghia Master Class gives students a virtual cultural experience as if they’re designing in that country.”
WE GET INSPIRATION FROM EVERYWHERE.

At Otis, creativity comes from all directions: from your peers and instructors in class, and, perhaps most easily, just from stepping off campus into Los Angeles, one of the most diverse, multifaceted, and multiethnic cities in the country. L.A. is home to the largest number of communities of people from outside their home countries of many nations, including Korea, Mexico, Iran, and Thailand, to name a few. Whether you’re looking to explore another culture through art, food, or music, or even get a taste of your own homeland, the city has something to offer just about everyone.
How Amanda DaSilva (’19 BFA Product Design) Sees the World Through Design

“I’m such a traveler,” says Amanda DaSilva. This explains why the Rhode Islander joined the Marine Corps after high school. After more than three years of service, DaSilva enrolled at Otis on the GI Bill, where a Foundation class called Drawing and Building Form changed everything. “I didn’t even know product design was a thing, but now I love when people ask me, ‘What’s product design?’ I’m like, ‘It’s that chair you’re sitting in, that cup you’re drinking out of, that magazine you read yesterday,’” she says. “Everything is a product.”

“I view the world from a different perspective.”

One product DaSilva is planning to design is an affordable, therapeutic chair for children with cerebral palsy, inspired by her trip to Blantyre, Malawi as part of the Creative Action program at Otis. The semester-long course included a two-week stay at the Jacaranda School for Orphans, where Otis College students taught workshops and spearheaded projects on site.

Though the experience was life changing, DaSilva doesn’t necessarily need a destination to be inspired. “I’ll be walking through an airport and I’m like, ‘Why would they set this up this way?’ This is a design opportunity in and of itself,” she says. “I view the world from a different perspective.”
WE NEED TO MAKE—AND TRY EVERYTHING.

As an Otis College student, you will present your work in a variety of ways. The Bolsky Gallery offers a professional setting for Fine Arts seniors to explore curatorial practice and organize exhibitions. MFA students in Fine Arts showcase their work at an annual Graduate Open Studios event and mount a thesis exhibition. Junior and senior Fashion Design students’ work is showcased in the annual fashion show. All graduating students take part in our Annual Exhibition, which includes an exclusive preview for industry recruiters and alumnx. Students’ digital portfolios are also featured on Otis.edu, and for the past two years have been showcased in our Virtual Annual Exhibition website (annual-exhibition.otis.edu).

Every year, Otis College hosts a Scholarship Benefit and Fashion Show, showcasing garments created by juniors and seniors in the Fashion Design program under the guidance of leading industry mentors.
The spirit of mentorship and connection is exemplified at Otis College’s annual fashion show, where the exceptional student-designed looks shown on the runway are the tangible result of our school’s entrepreneurial culture.

Juniors and seniors in Fashion Design are mentored by some of the top names in the fashion, costume, and styling industries, drawing inspiration from their mentor’s iconic styles, while tailoring their original designs to the show’s overarching theme.

For more than 30 years, Otis has welcomed such design mentors as Jason Wu and Bao Tranchi, costume designers Ruth Carter and Eduardo Castro, and legendary labels like Adidas, Vince, and Ralph Lauren.

1. Student Julia Choi embellishes an eveningwear design she created for mentor Eduardo Castro.
2. First fitting with mentors Henrietta Ernst and Amy Adams for A.L.C.
3. Fabric board and prototypes created for mentor Eduardo Castro.
4. Mentor Jason Wu and student Amanda Wang making final adjustments during a fitting.
5. Lace dresses by students Isabella Lopez (left) and Soline Gauthier (right) for mentor Jonathan Simkhai.
6. Designs created for NBC/Universal’s Back to the Future franchise by students Amber Sheng (left) and Mia Yang (right).
THE CORE EXPERIENCE

FOUNDATION YEAR
In your first year as an Otis College student, you’ll participate in our one-of-a-kind, immersive Foundation program. What you learn will serve you for a lifetime. Our first-year students take a sequence of studio courses structured to teach the fundamentals across all art and design. You’ll become a well-informed maker, experiencing new ways of thinking and looking at the world. You’ll learn to ask new questions and develop your own creative practice. Foundation aims to enhance your creativity, refine your voice, and help you transform your ideas into final form. The studio courses in Foundation, the faculty, and major-focused events help you make the best choice for your future major and career beyond Otis College.

LIBERAL ARTS AND SCIENCES
Our strong Liberal Arts and Sciences (LAS) curriculum supports and expands your art and design training at Otis College. We build your LAS experience around five themes: creativity, diversity, identity, sustainability, and social responsibility. Through courses that emphasize critical thinking in writing, visual literacy, the sciences, and art history, you’ll cultivate an understanding of context and culture. Our program encourages you to develop a persistent, self-reflective stance, a willingness to rethink traditional categories, and an opportunity to explore newly evolving realities. You’ll learn to question the obvious and to reaffirm enduring values. You’ll be able to articulate your own ideas and critically evaluate other ideas. We aim to help you appreciate what shaped the world you inherit and understand the cultural context of today so you can better shape the future.

CREATIVE ACTION
Creative Action is an integrated learning program that introduces students to compelling social and environmental issues—within their community and abroad—through a series of core courses. In each project-based course, students engage in research, leadership, and collaboration with a multidisciplinary team of classmates. There have been opportunities for travel-study to places like Blantyre, Malawi to work with the staff, faculty, and students of the Jacaranda School for Orphans, which provides free food, education, and medicine to children who have been orphaned by the HIV/AIDS epidemic. Other courses involve local communities. In a recent project with the Exceptional Children’s Foundation in Inglewood, students collaborated with developmentally disabled adults in the creation of an exhibition at the DAC Gallery in downtown Los Angeles.
BFA MAJORS
Starting sophomore year, you will select your major and begin to pursue your exploration of a specific art and design field. You will advance your work and professional preparation through a careful sequence of courses and educational experiences. All majors are enriched by internships and an extensive selection of minors that offer a complete and multidisciplinary academic experience.

Teacher Credential Preparation

GRADUATE PROGRAMS
As a graduate student at Otis College, you’ll develop your craft in a rigorous, supportive environment that provides a strong intellectual foundation for your future as a professional artist or designer.

MFA FINE ARTS
The MFA Fine Arts program encourages individual thought and a critical approach to one’s own practice and the discourses of our time. Graduate students develop in their own practices and at their own pace. As part of the MFA Fine Arts program, Otis offers courses in Art + Social Practice for students interested in individual art production and in working within various community and public contexts.

MFA GRAPHIC DESIGN
The MFA Graphic Design program is a student and faculty research collective of designers investigating contemporary issues. We blend design exploration, critical inquiry, and applied projects to interrogate and better our world. We partner with organizations to foster a deep impact beyond the classroom. During the course of studies, students learn to work across media and platforms through a series of studio projects, visiting workshops, roundtable discussions, and courses in design theory and history.
WE WORK HARD AND WORK IS OUR PLAY.

Every student at Otis is encouraged to complete an internship, and we’re committed to helping you find the right fit. Our Career Services counselors will help you develop your resume, portfolio, and other promotional materials; cultivate a network; and advance your interviewing skills.

We host an annual Intern Recruitment Day for employers to connect with students seeking paid summer internships. Every year, representatives from more than 100 companies attend the event, including Adidas, Google, FOX, and Sony Music. Career Services also organizes employer visits throughout the academic year with companies such as DreamWorks, Nike, Cartoon Network, Mattel, and Under Armour.

Otis Design Lab Offers Real-World Experience to Otis College Students

While plans for Otis Design Lab had incubated for years, the pandemic and the need to give students more work study options helped to fast-track the project so that students were recruited in September 2020 and had their first client by that December. Their first assignment—which included designing a sectional sofa for furniture manufacturer Jonathan Lewis, as well as marketing and social media campaign ideas for its launch—came to fruition this past June at North Carolina’s High Point Market, the world’s largest furniture trade show. Seven Otis students from three different academic programs (opposite page) were the pilot team that pulled off the incredible feat with guidance from staff and faculty mentors.

Acting as a creative agency, Design Lab offers students the opportunity for paid work, taking on internal Otis projects as well as those from outside clients, while contextualizing what is being learned in the classroom.

“We haven’t done a good job at cultivating young talent into this industry,” says Jonathan Louis CEO Javier Sanchez. “It was wonderful to see how the students came up with all these different, well-thought-out plans. It does a lot for the company, it does a lot for the community and the students, and that, in itself, has value. You can’t put a price tag on it.”

“It was wonderful to see how the students came up with all these different, well-thought-out plans.”

WE EXPERIMENT, WE FAIL, AND WE GROW. WE USE ALL THE TOOLS.

If you can dream it, we can help you build it. The labs and shops at Otis College offer the tools, equipment, and training you’ll need to realize your ideas. You can learn metal welding, woodworking, laser cutting, and 3D printing. We also have letterpress, silkscreening, ceramics, and lighting studios, and photo labs. The Millard Sheets Library includes a collection of 45,000 books and exhibition catalogs, and an additional 110,000 e-books, more than 5,000 videos, a special collection of 3,000 artists’ books, and subscriptions to 150 periodicals and online databases. We also maintain a collection of unusual, innovative materials—including samples of woods, plastics, metals, fabrics, and more. There’s also a Resource Exchange where students can trade and recycle unused or reusable art supplies and material goods.
Los Angeles is the heart of the creative economy in California, and one of the great creative capitals of the world. Our residential main campus, located in the Westchester neighborhood on the city’s Westside, is just minutes from the airport and the beach. Graduate Fine Arts studios are in nearby Culver City. As an Otis College student, you can explore all that the L.A. region has to offer: world-class museums and galleries, historical sites and innovative architecture, natural wonders and diverse neighborhoods.

It’s also an ideal place to launch a career. The creative economy generated 797,075 jobs in 2018 in the L.A. region alone, according to the Otis College Report on the Creative Economy. One in seven workers in the area was employed in a creative field — the largest concentration of creative industries workers in the nation.

In 2018, Entertainment and Digital Media accounted for the largest share of L.A. County’s employment in the creative sector, responsible for roughly 2 out of every 3 jobs in the creative industry.

The Fashion industry accounted for the second largest share of jobs in the county’s creative industries, making up nearly 1 in 5 of the county’s total creative employment.

For more information and the latest Otis College Report on the Creative Economy, visit otis.edu/creative-economy.
Seeing art in context is a huge part of our education, and we’re able to do it because L.A. is our classroom,” says Fine Arts Chair Meg Cranston. And quite the classroom it is, considering the sheer number and renown of the city’s many museums and galleries. The Broad, MOCA, LACMA, the California African American Museum, and the Getty are just a few of the institutions that have been toured by Fine Arts students on what the department calls a “Day Out.”

Often a faculty member or a curator leads a tour of an exhibition, and sometimes the artists themselves are there to answer questions. “Our students are makers, so when they go to see a work of art in context they can actually put their nose right to it and investigate,” Cranston says.

Connecting students with artists in the field is another crucial component of our curriculum, fostered by our Mandy and Cliff Einstein Visiting Artist Series, with lectures open to the public and often held at notable L.A. locations, such as Kara Walker presenting at the California African American Museum, or Elgreen & Dragset, the duo behind Prada Marfa, presenting at the historic downtown Ace Hotel.

Shirin Neshat, Jeffrey Vallence, curator Zoé Whitley, and multi-disciplinary artist Edgar Heap of Birds are other recent Einstein speakers, exemplary of the series’s simple criteria: “Who are the people who are really influencing the field, who have a significant record in the field?” says Cranston. “And also, who do we believe would be most impactful for our students?”

“Our students are makers, so when they go to see a work of art in context they can actually put their nose right to it and investigate.”
WE WELCOME, SUPPORT, AND INCLUDE.

We’re a small school with a big heart. We foster a community in which you’ll have the support you need to grow personally and professionally. You’ll learn from faculty who are accomplished artists, and also passionate teachers and mentors. You’ll learn to collaborate, practice empathy, and make lifelong friends. An Otis education includes a constructive yet supportive critique culture, which varies across the undergraduate and graduate programs. We’re committed to your success, safety, and well-being. You’ll have access to comprehensive health services, psychological counseling, and wellness support. If you need extra help with classes, peer tutors at the Student Learning Center are available. If you’re an international student, we offer a number of additional resources to help you obtain a student visa, find employment and housing, and adjust to life in the U.S. If you choose to live on campus, you’ll have the support of trained resident assistants, the opportunity to both live and learn with your peers, and unparalleled proximity to your studios and classrooms.
Otis College offers the only dedicated four-year Toy Design program in existence, which means the department welcomes passionate students from all over the world. And graduates—who finish the program well-versed in everything from conceptual and technical drawing to prototyping and storytelling—go on to work all over the world, in countries like Australia, Japan, Denmark, China, and Germany, for brands such as Lego and Barbie.

Of course, given the opportunities available, many graduates also stay right here in L.A., home to toy industry juggernauts MGA Entertainment, Mattel, Spin Master, and Disney, to name just a few. “We’re fortunate to be located in L.A., a toy industry hub,” says new Toy Design Chair Jennifer Caveza. “Local companies support the program in many ways, including in the employment of our students.”

Thanks to the program’s versatility, employment can range from dolls, board games, and action figures to preschool, plush, and vehicles. Another benefit is that alumni and industry executives often come to campus for critiques and guest lectures. “It’s a wonderful, supportive community,” Caveza says, which is especially evident on Intern Recruitment Day.

“We’re fortunate to be located in L.A., a toy industry hub.”
DIVERSITY DEFINES US.

Otis College is among the most culturally diverse art and design colleges in the U.S. Thirty-seven percent of our students are from outside California, 24 percent are international, and 31 percent are first-generation college students. As for demographics, 23 percent are white, 20 percent are Asian, 20 percent are Latinx, 6 percent are biracial, 5 percent are Black, 0.2 percent are Hawaiian/Pacific Islander, and 0.1 percent are American Indian or Alaska Native. As an Otis College student, you’ll meet (and learn from) people with different cultural and ethnic backgrounds from your own—and that’s one of the most valuable experiences we provide. You’ll develop empathy, an expanded worldview, and an open mind, which are essential to your success in any creative field.

The Otis Ten Points: Standing Up for Equity

1. **WE DO NOT TOLERATE RACISM** or any other form of violence or discrimination from anyone.  
2. **WE EXPECT ALL OTIS** community members to work toward dismantling systems of oppression.

3. **WE RECOGNIZE THE COLLEGE’S HISTORICAL STRUGGLES AROUND EQUITY** and the ways those reflect struggles in U.S. culture and beyond.

4. **WE RECOGNIZE DIVERSITY** as a reality, a responsibility, and a resource.

5. We commit to treating EVERY PERSON’S IDENTITY WITH DIGNITY AND RESPECT.

6. We commit to practicing INSTITUTIONAL RESPONSIBILITY to redress unjust histories.

7. We commit to an ongoing systemic and structural approach in correcting inequities.

8. We commit to holding ourselves and our other accountable to our collective effort to create an inclusive campus

9. **WE COMMIT TO HONESTY, VULNERABILITY, AND OPENNESS** as we dialogue across differences.

10. We commit to an intersectional and JUSTICE-ORIENTED APPROACH.
OUR CAMPUS

Our five-acre main campus is located on Lincoln Blvd. in the Westchester neighborhood of Los Angeles, just a few minutes from LAX airport and 1.5 miles from the beach.

Our campus began with the iconic Ahmanson Hall, a seven-story building built in 1963 as the headquarters of IBM Aerospace, which now houses our administrative offices and several academic departments. This building, designed by renowned modernist architect Eliot Noyes, is known for its distinctive windows, resembling the original IBM computer punch cards. In 2001, we expanded our campus facilities with the Bronya and Andy Galef Center for Fine Arts.

In 2016, we opened the 230-bed Residence Hall and the Anne Cole Building, confirming our commitment to campus life and community.

Recently, through a partnership with neighboring Loyola Marymount University, Otis students are also eligible to take dozens of courses offered at LMU each semester.
ENGAGE WITH OTIS COLLEGE

We offer many opportunities to connect and engage with our community, virtually and in person. For the 2021-2022 academic year, please check online at otis.edu/connect for opportunities to visit the campus in person as well as connect virtually. The various ways you can connect with us are listed below.

Counseling Appointment: Meet with an Otis admissions counselor to get advice on your portfolio and learn more about the application process, scholarships and financial aid, and our unique programs (both in-person and virtual offerings).

Virtual Tour: Experience our campus from anywhere with our online virtual tour available at otis.edu/visit.

Live Virtual Tour: Sign up for a live virtual tour led by a student ambassador. This is a great way to learn more about our majors, and hear from a current Otis student!

Campus Tour: Sign up for an in-person campus tour led by a student ambassador. Learn about the programs and various spaces on campus, including the Residence Hall. You can also schedule an appointment with an admissions counselor directly before or after your tour.

Virtual Portfolio Development and Majors Info Session: During this one-hour session, an admissions counselor will give you tips to develop a portfolio to apply to art and design school. You’ll also see examples of different portfolios and get insight on the application process. We will also review the different majors offered at Otis and how you can begin to make work specific to a major.

Virtual Transfer Info Session: Prospective transfer students can learn more about the transfer process to Otis during this session, led by an admissions counselor. The info sessions cover how to select courses for transfer, the majors and minors offered at Otis, and how to prepare a transfer application.

Portfolio Reviews: At the National Portfolio Day events, you can meet an Otis College admissions counselor and get feedback on your portfolio before you apply. Check nationalportfolioiday.org for the 2021-2022 schedule.

Chat With Us: Admissions is available via SMS text message at 323-870-6820. You can also connect with current students on our chat platform at otis.edu/chat.

Engage with us! Take a tour or get feedback on your portfolio from one of our admissions counselors. Contact us to learn more—we’re here to help!

UNDERGRADUATE APPLICATION REQUIREMENTS

1. ONLINE APPLICATION
First-year applicants should apply through the Common Application. Transfer applicants should apply through the Otis Online Application. Links to applications can be found at otis.edu/apply.

2. $50 NONREFUNDABLE APPLICATION FEE

3. PORTFOLIO
Your portfolio should include 10-20 examples of your best and most recent work, reflecting your creativity and mastery of technique. Applicants whose work is digital or photo/video based should include five examples of work in other mediums. This also applies to transfer applicants. Artwork can be in any medium that best showcases your abilities. All portfolios should be submitted through SlideRoom. Visit otis.edu/portfolio for more details and tips!

4. TRANSCRIPTS
Official transcripts showing completed coursework to date is required. Transfer students are also required to submit final high school transcripts (with graduation date) and official transcripts from all colleges and universities attended.

International applicants are required to submit official translations for all transcripts not in English. International transfer applicants should submit a course-by-course transcript evaluation from World Education Services (wes.org) or another National Association of Credential Evaluation Services (NACES) member organization (naces.org/members).

5. PERSONAL STATEMENT
In at least 500 words, describe your background and interest in studying art and design at Otis College.

ADDITIONAL CONSIDERATIONS

Test Scores
ACT and SAT test scores are not required.

English Proficiency
An English proficiency score is required for all international students and permanent residents whose primary language is not English.

Minimum requirements for BFA admission are 79 on the TOEFL, 6.5 on the IELTS, 58 on the Pearson PTE, or 105 on the Duolingo English Test.

This requirement may be waived for students who have graduated from an English-speaking institution. Official transcripts are required to determine eligibility for waiver.

Summer Language Program and Conditional Admission
Applicants whose English proficiency score does not meet the requirements listed above are still encouraged to apply. Based on your score, you can be considered for admission to our Summer Language Program or offered conditional admission.

otis.edu/apply

For Graduate Program application requirements and deadlines, please visit otis.edu/graduate-programs.
**FINANCIAL AID**

**OPPORTUNITIES FOR AID**

All applicants are considered for a merit scholarship when they apply, including international students, based on the quality of the admissions application. U.S. citizens and permanent residents are eligible to apply for additional aid by submitting the Free Application for Federal Student Aid (FAFSA). Additional information about opportunities to apply for need-based aid can be found at otis.edu/financial-aid.

**WHAT TYPE OF AID MIGHT I BE ELIGIBLE TO RECEIVE AS A U.S. CITIZEN/PERMANENT RESIDENT**

1. Federal Pell Grant, Supplemental Educational Opportunity Grant
2. Cal Grant (for California residents only)
3. Otis College Scholarships
4. Federal Direct Loans and PLUS (Parent) Loans
5. Federal or Institutional Work Study

**HOW DO I APPLY FOR FINANCIAL AID?**

U.S. Citizens/Permanent Residents:
- Obtain a Federal Student Aid ID (FSA ID) online at fsaid.ed.gov/nas/index.htm
- Complete the FAFSA online at fafsa.gov
- Enter school code: 001251

International Students:
- Complete the CSS Profile at cssprofile.collegeboard.org
  (There is a $25 submission fee)

**FAFSA**

Opens: October 1
Recommended Deadline: March 2

**CAL GRANT**

Deadline: March 2

**QUESTIONS? CONTACT FINANCIAL AID**

Email: onestop@otis.edu

New Selfie Walls by Otis College Graduates Go Up at LAX

Travelers inside Los Angeles International Airport (LAX) are greeted with a series of new “selfie” walls that feature artwork by Otis College alumx. The project is a continuation of one that began in Otis’s Centennial year in 2018, in which graphics by then-students were installed in different terminals in the airport, and travelers were encouraged to take selfies in front of them and post their pics to social media. (The work by 2018 graduate Charlie Kendall, Alternative Transportation, which was used for the poster wrap for this year’s Viewbook, came from the 2018 mural series.)

The collaboration was so well-received that new work went up over the summer, with more to come, to welcome guests arriving in Los Angeles.

The collaboration with LAX Visitor Services presented an ideal opportunity to use local art and design to highlight Los Angeles’s dynamism and diversity. There’s the mural by Gun Oh (‘19 BFA Digital Media) depicting Hollywood and its klieg-lit promise of opportunity. Jeanette Kulick (‘19 BFA Digital Media) used the Santa Monica Pier as a backdrop for a piece showing the “glittering shores” of Southern California’s beaches. Khang Nguyen (‘21 BFA Communication Arts) illustrated a colorful cityscape in his mural, a revision of one that was used as the poster wrap for last year’s Admissions Viewbook.

Visit the hashtag, #ComeFlyWithLAX, on social media to see how the murals are enjoyed and shared.
