

***MAIDINA NUSILAITI***

# Mybrary Apartment

The interior of the building is divided into four towers, each tower contains four apartments. A public library fills the interior and walkways connect to the apartments.

In the building, space flows from inside to outside and gives people a whole new experience of living in downtown LA.

556 Broadway , Los Angeles , CA. 90013

# Fire Fighter Training Station

The main idea of the project is protection. The purpose of the building is to be built as a safe space for the training station, at the same time, being able to protect the surrounding communities.

# DEVELOPMENT DIAGRAM

Provided site area

Lowering one point on each side provides better vision and sunlight

Four walls in each direction for protection

Dividing the building into two system, the blue area contains all the indoor programs, the yellow area is a water tank

Straight walls turn into four curved walls for collecting mud & water, and for more outdoor space on each side

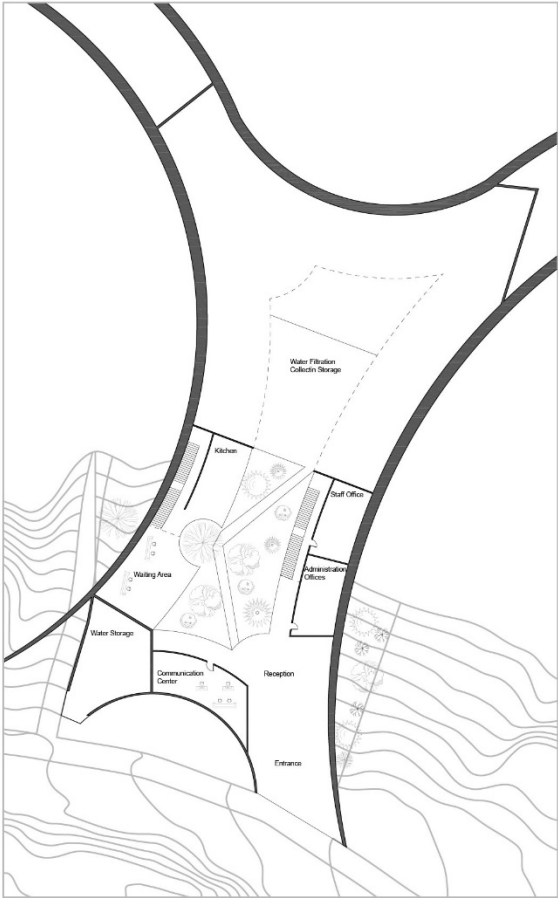

Green space in the middle will be an atrium garden
