# **Photography Minor**

The Photography minor provides students the opportunity to explore the technical, formal, historical, theoretical, and ethical concerns of fine art and editorial photography through a combination of studio and art history courses. A variety of traditional, experimental, darkroom and digital approaches will be explored as students develop their individual representational languages.

### **Eligibility**

The Photography minor is open to students majoring in Architecture/Landscapes/Interiors, Communication Arts, Digital Media, Fashion Design and Toy Design. Because of their curricular requirements Product Design majors will only be approved to enroll on a case-by-case basis. Students must be on track in their major and in good academic standing, with no more than 6 credits behind and a cumulative GPA of 2.0. Photography minors will only participate in the Senior Show of their home department, however depending on space availability, they may utilize Fine Arts Senior Studios on a case-by-case basis with approval from the Department Chair.
