

# Sustainability Minor

Recognizing the innovative role artists and designers can play in solving these pressing challenges, the Sustainability minor provides students with a broad understanding of the social, political, economic and environmental issues impacting the future of humanity and our planet. Students will study and develop strategies and systems, as applicable to art and design, which can meet the needs of current generations without compromising those of future generations. Courses fulfill requirements in Creative Action and Liberal Arts and Sciences, as well as electives across all studio departments.
