

Sustainability Minor

Recognizing the innovative role artists and designers can play in solving these pressing challenges, the Sustainability minor provides students with a broad understanding of the social, political, economic and environmental issues impacting the future of humanity and our planet. Students will study and develop strategies and systems, as applicable to art and design, which can meet the needs of current generations without compromising those of future generations. Courses fulfill requirements in Creative Action and Liberal Arts and Sciences, as well as electives across all studio departments.

Eligibility

The Sustainability minor is open to all majors. Students must be on track in their major and in good academic standing, with no more than 6 credits behind and a cumulative GPA of 2.0.
