

## Course Proposal for Sustainability Minor Elective

Thank you for your interest in teaching a course as part of the sustainability minor. Please complete and return this form, along with a copy of your syllabus. In order to ensure that certain areas of learning occur throughout the minor, we must be aware of the goals and learning objectives of each course offered as a sustainability elective.

Name of Faculty	Department	Course Number	Course Name
<b>Course Description</b>			
<b>Semester and Year this course will run:</b>			
<b>Which aspects of sustainability will your course focus on? (check all that apply)</b>			
<input type="checkbox"/> Environmental <input type="checkbox"/> Social Equity <input type="checkbox"/> Economic <input type="checkbox"/> Health <input type="checkbox"/> Materials & Resources			
<b>Sustainability Electives must offer learning in one or more of the following criteria. Please check all that apply to your course.</b>			
<b>What- Research &amp; Context</b>		Students will study and apply issues related to climate change and the effects that humans have on the planet and its resources.	
		Students will study and apply sustainable growth principles and/or sustainable business/professional models.	
		Students will apply problem-solving skills in sustainable settings.	
<b>How- Methodology</b>		Students will apply one or more sustainable design strategies, including but not limited to Cradle-to-Cradle, Lifecycle Analysis/Assessment, Biomimicry and Natural Capitalism.	
		Students will demonstrate the application of sustainable materials in the creation of art and design, considering issues of toxicity, production, waste, processes, transportation, recycling, reuse, etc.	
		Students will demonstrate the application of new sustainable systems and models in art and design (distribution & access, co-operatives, alternative economic systems, etc).	
<b>Why- Futures/ Outcomes</b>		Students will propose alternate progressive futures in creative solutions.	
		Students will develop their own sustainable business/professional practices.	
		Students will apply ethical social models in all aspects of the art and design process.	

**What are the course learning objectives supporting the criteria? (must match your syllabus)**

**What are the assignments/projects where the learning objectives will be demonstrated?**
